Aluminium Foil Resin (IP)

Marble Resin (MB)

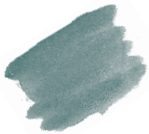

Oil Paint (OP)

Our key colours for 2026

With the move to more sustainable practices, so the fashion industry has slowed down its previously quite speedy changing of colours from season to season. We are now seeing more of an evolution as particular shades have longer durations and some may just change slightly in tone, so dark green carries on throughout the year and mint green morphs into lime.

Spring & Summer Colours

Dark Green

Sky Blue

Fuchsia

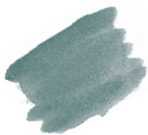

Mint Green

Turquoise

Autumn & Winter Colours

Dark Green

Cream

Purple

Cocoa

Lime Green

Colourful, affordable

Jewellery, Scarves and Accessories

Everything we do is underlined by our passion for high quality, great value products, backed up with excellent customer service.

We get heavily involved in the design of many of our products, creating some from scratch and seriously tweaking others. All seasonal colour palettes are curated by Miss Milly.

We care about having a varied range and achieve this by working in partnership with a number of different manufacturers all of whom we have visited in person. We continue to work hard on the sustainability of our business and have reduced our overseas visits to once per year, which has been possible through excellent relationships with our trusted manufacturers. Our packaging is recyclable and made from FSC certified paper. And we are delighted that our warehouse achieved B Corp certification in 2024.

We work on an ethical basis, paying a 30 - 50% deposit upfront to cover all material costs and if the quoted price is too high for us, we reduce it through changing the materials or the design. Stocked by gift shops, fashion boutiques, garden centres and visitor attractions, we have a loyal customer base for our colourful products and can also supply branded gift packaging, POS and display stands.

- £100 minimum order
- No minimum order quantity
- £8 mainland UK delivery charge
- £18 Highlands & Islands delivery charge
- £300 UK carriage paid order
- Attractive RRP's with great margin potential
- Efficient, friendly service with fast order turnaround
- Simple to use website with access to previous orders (register for trade login)
