Intricate artwork, thoughtfully made for retail

Top City Art & Design is run by husband-and-wife team Daniel and Kim Griffin, combining intricately-detailed, human-made artwork with thoughtful product design.

Daniel creates intricate illustrated scenes that capture the character, energy and essence of cities, venues, landmarks and destinations, while Kim works across product design, materials, sampling, packaging and quality control.

Together, we create distinctive artwork-led products for gift shops, visitor attractions, venues and retailers - from prints, mugs and tumblers to apparel, notebooks, gift packaging and bespoke collections.

Giftable by design

Each artwork begins with careful digital composition, using 'Blender', a 3D design program, to establish structure, perspective and depth. Daniel then illustrates the small details by hand using a tablet and stylus, creating rich urban scenes that invite customers to look closer.

The result is artwork with depth, character and a genuine human touch, designed to elevate everyday products into something more distinctive, collectible and giftable.

No AI artwork. No generic graphics. Original illustration created with care, and purpose.

Gift Packaging
Custom illustrated boxes
for premium retail

Notebooks
Illustrated stationery with
strong shelf appeal.

Apparel
Graphic tees and hoodies with
detailed designs.

Ceramic Mugs
Giftable illustrated mugs for
destination and retail ranges.

Wall Art
Framed and rolled prints featuring
richly detailed urban scenes.

Tumblers
Insulated drinkware with
vibrant full-colour artwork.

Products designed to be picked up

Our artwork is designed to work across a wide range of product formats, allowing retailers to build cohesive collections around a city, landmark, venue, attraction or theme. Products can be supplied as finished stock, developed as bespoke ranges, or adapted for licensing.

Bespoke Collections, Licensing & Collaboration

We work with gift shops, visitor attractions, venues, destinations and retailers to create artwork-led products tailored to their audience. This may include a custom illustration of a specific location, a coordinated product range, bespoke packaging, or licensed artwork for use across your own merchandise.

Whether you are looking for finished products, a bespoke retail collection, or artwork licensing, we can help develop a range with strong visual appeal and a clear sense of place.

How It Works

1. Initial Enquiry

Tell us about your shop, venue, destination or retail project.

2. Concept & Direction

We agree the artwork subject, product formats, quantities and intended use.

3. Artwork & Product Development

We create the artwork and work together on sampling, materials, packaging and presentation.

4. Supply, Licensing or Launch

We supply finished products, prepare artwork for licensed use, or support the development of a bespoke collection.

*MOQ on selected products. Please get in touch via www.topcity.shop or hello@topcity.shop for a custom quote.

**Interested in stocking Top City Art & Design products,
commissioning a bespoke range, or licensing artwork for your
own collection?**

Get in touch to discuss products, quantities, artwork options and pricing.
