About us

Handcrafted in Yorkshire, Aether & Nox is all about effortless ethereal jewellery with a playful, modern edge.

Designed and crafted by Jason, the collections span lightweight polymer clay pieces alongside natural gemstone jewellery, all finished with stainless steel and made to be stylishly expressive, comfortable and easy to wear every day.

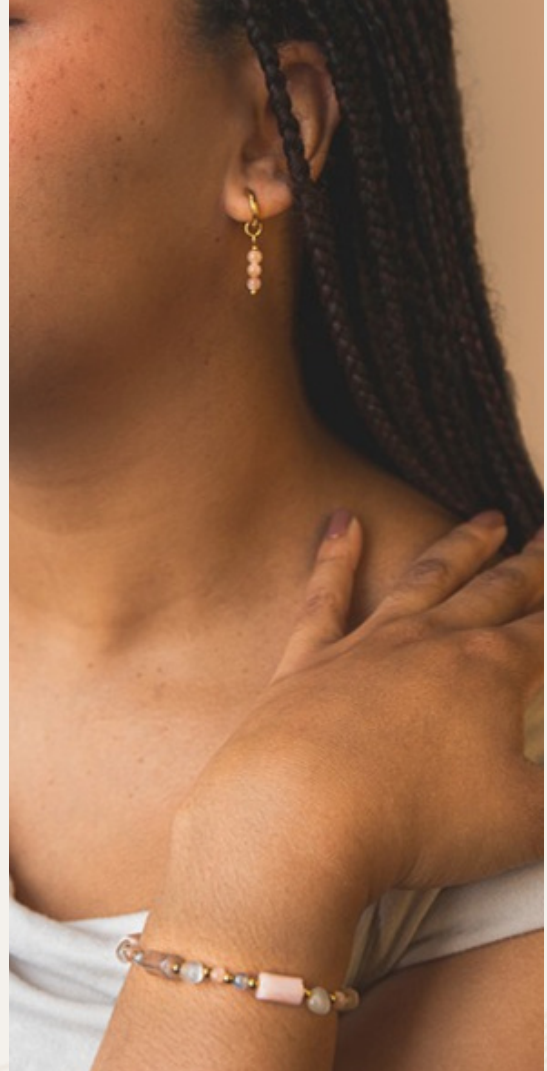

Note from the founder

I'm Jason, the designer and maker behind Aether & Nox. After a career in finance, I began creating lightweight, affordable jewellery for the women in my life. What started at local makers markets in West Yorkshire has grown into a distinctive jewellery brand, bringing together playful polymer clay designs, natural gemstones and ethereal inspiration.

Today, every Aether & Nox collection is designed to feel inclusive, comfortable and full of character, with pieces that balance sophisticated colour, individuality and the beauty of the natural world.

I hope this brochure gives you a real feel for the Aether & Nox story, our collections and what makes the brand so special.

Created in response to growing customer demand, Natura brings natural gemstones into the Aether & Nox world.
