A CELEBRATION OF VINCENT VAN GOGH

THE
NATIONAL
GALLERY

One of most widely recognised painters in the world, Van Gogh's (1853–1890) works are famed for their great vitality and characterised by his expressive and emotive use of brilliant colour and energetic application of paint.

2023, sees the Van Gogh Museum, Amsterdam (Van Gogh Foundation) celebrate its fiftieth jubilee. We are delighted with our collaboration with the museum. Our motivation to work together is inspired by the Van Gogh quote 'If one truly loves nature one finds beauty everywhere.' We have worked hard to capture the essence of Van Gogh's paintings in a range of home and garden ware. The paintings adorning our range are *Almond Blossom* 1890, *Irises* 1890, *Wheatfield under Thunderclouds* 1890, *Butterflies and Poppies* 1889, *Wild Roses* 1889, *Vase of Flowers* 1890 and *Landscape at Twilight* 1890.

Looking ahead to May 2024, the National Gallery will be 200 years old. One of the exhibitions to mark their Bicentenary celebrations is NG200: Van Gogh. We are delighted to continue our fantastic association with the National Gallery with a focus on 'Sunflowers' and 'A Wheatfield with Cypresses' as we celebrate Van Gogh's work.

ALFRED WISE: FLOWER BED

WISEARTWORK COLLECTIONS

The Wisearwork Collection transports the delicate botanicals captured by the renowned RHS artist-in-residence Alfred Wise, into a beautiful collection fit for the ultimate flower bed—both inside and out. All cushions designs are available in cotton linen or a water resistant fabric (suitable for use outdoors).

ABOUT ALFRED WISE:

Alfred Wise (1908 -1985) spent most of his working life as a botanical artist-in-residence, engaged at RHS Wisley, Surrey. A prolific painter he created over 1,000 watercolour paintings of selected plants, often of those winning prestigious medals and awards of merit at RHS flower shows. Wise was a true eccentric and loner - living in a ramshackle caravan in the grounds at RHS Wisley, surrounded by his brushes, paints and his beloved artwork — an individualist's artists paradise in an idyllic location.

The Kate M Burrell collection consists of seven deckchair designs from TfL's London Transport Museum poster archive. Drawn between 1927-1928 they take the sitter on an art deco adventure from the end of the line, to an up-river excursion, a countryside jaunt and finally a visit to the seaside across a palette of bright pinks, blues and greens. Burrell designed posters for the Underground Group and London Transport between 1924-1934. A relative mystery though surrounds the designer who is thought to be Kathleen Burrell a founder, in the 1920s, of Clement Dane Studio, which was a prevalent commercial design company at the time.
