WHO ARE WE?

An independent, family-run business based in the Benenden, Kent and proudly members of Produced in Kent.

Since we started in 2021, a lot changed, and our products been described as better than famous brands, and not costing a fortune.

WHAT WE DO?

Unique creations! We don't go for what can be found in shops or by other candle makers.

All products are handmade, creative, made in small batches, to ensure high quality. Sustainable, Eco-Friendly, cruelty-free, vegan, using carefully sourced ingredients from UK producers.

On top of not using plastic, every part of our creations can be re-used and repurposed, including our tag printed in a seeded paper (included on the classic). We don't just make ordinary candles, but we create a whole experience, where our customers can travel around the world with the specially picked fragrances.

WHAT MAKE THEM SO SPECIAL?

Our passion, knowledge and creativity, which is translated into our creations.

We are committed in producing sustainable products with minimal impact on the environment.

Guided by sustainability and Eco-Friendly principles, our products are hand-poured using the finest and highest quality plant-based wax, (pure coconut wax and in some creations olive wax), with unique fragrances delivering a long-lasting, great-smelling, complemented by a wooden wick providing an amazing crackling sound and unique burn, always creating the perfect ambience.

ACHIEVEMENTS

Winners of the best stand at the Wealden Times Mid-Summer fair, making exclusive candles for Chapel Down and Mereworth Winery (cutting and re-purposing their bottles), products travelling around the world, magazine features, are only a few examples of our achievements.

We proud ourselves for putting a lot of passion in our creations and is difficult to put in words everything we have done and achieved in a such of a short time.
