## ABOUT

### Rooted in Nature

Based in the heart of Somerset, I create stationery and natural well-being products inspired by the beauty and power of nature. My studio looks out onto fields of sheep and in the spring there's lots of lambs jumping around! I believe that nature is amazing and getting outside even for tiny bit makes a real difference.

### Its all starts with a snip!

Each collection I create starts with a handcrafted collage using hand cut shapes from beautiful patterned origami paper along with ink drawings. These designs are used to create luxury stationery made with the finest paper stock, a real treat to use.

### Little Details

I have three children and sometimes with the lure of pocket money they help out sometimes. My husband makes gin.....be ready for cocktails if you visit! Other random facts include a mid-life enjoyment of exercise (I've spent much of my life avoiding it!), a love for Dahlias, and finally I cannot resist children's sweets, particularly Haribos!

### A highly demanded range

You'll find our collection in over 400 lovely retailers not only in the UK but also in Belgium France, The Netherlands, Germany, Japan, Switzerland, Australia, New Zealand and the USA.

We are delighted to be supplying prestigious stores such as Kew Gardens, RHS Wisley, Chewton Glen, Daunt Books, Fenwick.

I hope you enjoy this collection, do let me know if I can help with anything.

Eloise x
