About The Brand

ooo

Who we are:

Inspired and driven to live better by the planet and its beautiful inhabitants, The Trunk Bottle Co. places sustainability at its core. Through quality-led design, our products offer everyday reusable solutions in the pursuit of a better drinking experience with a mission to reduce waste.

What we do:

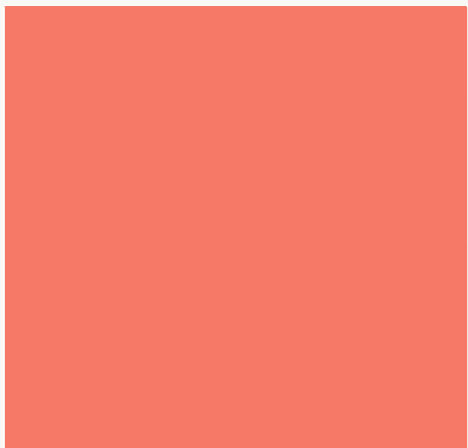

- Eco-friendly, reusable insulated bottles and tumblers, keeping drinks cold up to 24hrs and hot up to 12hrs.
- We use a mix of recyclable and biodegradable packaging. We are working with suppliers to minimise packaging waste even further by the end of 2023.
- Working with charities and organisations to support the welfare of elephants, the re-building of forests and the reduction of our carbon emissions. We also support projects that keep our local areas and beaches clean. Please see page 8 for further details.

NEW COLOUR SS23

Persimmon

A silky honey shaded coral

PANTONE 16-1544

Inspired by
London Fashion Week,
Persimmon oozes "brightness
and vibrant positivity", making
it one of Pantone's 'TT' colours
for SS23.

The Trunk WINE BOTTLE

ooo

Think picnic in the park on a warm summer's day, a trip to the beach with the hot sand between your toes or on holiday lazing around the pool; book in one hand, wine in the other.

Now think of that wine staying ice cold all day...

Say goodbye to warm wine dramas and hello to cold wine perfection!

The Trunk Wine Bottle keeps wine cool up to 24hrs. Insulation technology using double-walled, 18/8 food-grade stainless steel has made warm wine on a hot sunny day a thing of the past.

With six original colour choices and a fresh new arrival for SS23, the only decision is whether to pick cool and original or bright and bold.

Tumbler

ooo

The Trunk Bottle Tumbler holds 340ml (over half a bottle of your fav chilled wine) and keeps your drinks cold up to 6hrs and hot up to 3hrs.

The perfect addition to the Trunk Wine Bottle, the ultimate dream team.

With an easy-to-use, spill-proof lid, your drinks are good to go whilst you're busy on the go and even better when socialising with friends!

Produced with double-walled, 18/8 food-grade stainless steel insulated technology, these versatile little numbers are lightweight, durable and BPA-free.

Co-ords to match their Wine Bottle peers, the tumblers are available in six colours with a fresh new addition for the SS23 season.

Reusable drinking has never looked so good.
