About Us

MANTIDY

Mantidy is a London-based lifestyle brand. It offers high-quality all-in-one travel accessories and organisers, aiming to combine functionality and design in order to offer the perfect travel companion. This is why Mantidy includes all necessary accessories in the organisers - manicure sets, mobile phone accessories kits etc.

Inspired by travelling and the diversity of culture, Mantidy created two collections. Its handwoven collection is distinguished by the herringbone weave, which is handcrafted by women in Sibaltan Village in the Philippines, traditional mat and market basket weavers.

With its green manufacturer and GREAT Women Initiative, Mantidy supports local women entrepreneurs, allows them to receive better payment and improve the infrastructure of their community, including solar-powered energy and running water.
