# Welcome!

We are a UK based, design led brand providing products that fuse style, comfort and need for little ones and their families. Led by Sarah and Faith, most of our concepts and ideas have developed from our own experience of family life with little ones.

Our style is colourful, bold, playful and illustrative, echoing the honesty and beauty of those first few years of early childhood.

We care about sustainability and the people behind the manufacturing of our products. Our packaging is plastic free and we partner with community initiatives around the world in the manufacturing process.

From our range we have carefully curated a wholesale line that we think will look great on your virtual or physical shelves. If you have any questions please get in touch, we would love to hear from you.

A close-up photograph of a baby's face and upper body. The baby is wearing a light pink headband with a large bow on top. They are holding a wooden rattle with red beads in their right hand. A semi-transparent white rectangular box is overlaid on the center of the image, containing contact information. The background is slightly blurred, showing vertical lines, possibly from a crib.
