Howl in Hymn

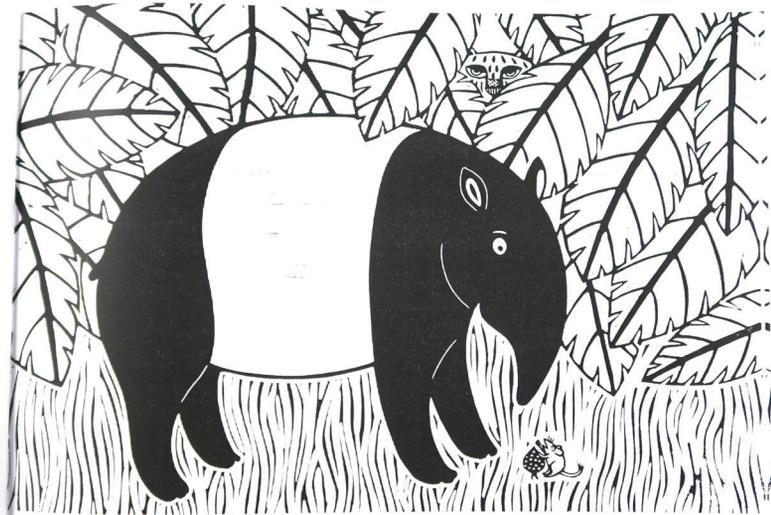

written and illustrated by Patrick Kennedy

New books debuting this year are 'Bungo - A Dog's Life' A story that should appeal to any dog lover.

And 'Colour in Animals' a book full of beautiful lino print images for children and adults to enjoy colouring in.

The Amur Leopard lives in China, in the forest and the mountains. He can run very fast, but likes to sleep too. So snoozy in his tree, he hasn't spotted the chameleon - can you?

The Tapir lives in the rainforests of South America. He has a long snout like an elephant's trunk, and uses it to eat fruits and leaves. He is quite shy - but not afraid of mice as you can see!

Square bird cards (showing rear of card)

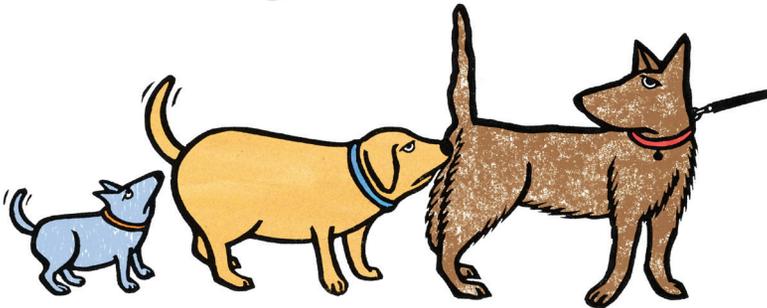

I patrol the neighbourhood.
It takes time.
Lots of time.

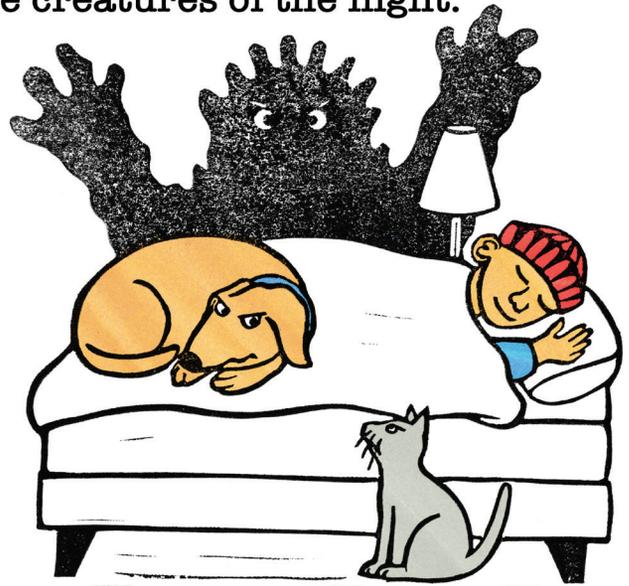

Then they say they are
'training' me.
But really they are
very controlling.

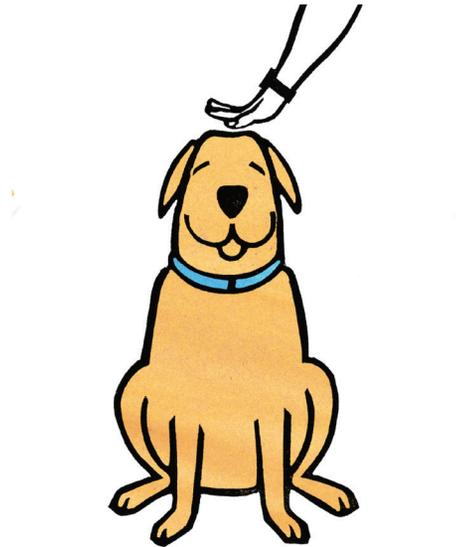

Meetings are important too.
Team building exercises. We do it all.

And we keep each other safe from
the creatures of the night.
