## About the Artist, About the Brand

I am a Kenya-borne artist that loves to travel, draw cool people and illustrate beautiful scenes. I studied at Central Martins (BA, textile degree) and at Chelsea College of Art (MA, textiles). Though I formally studied textile design in art school, being a city girl, I always found myself creating drawings and illustrations that depicted life in the city. Through my designs, I was able to bring to life London's hip city vibe and atmosphere.

The results of my artistic adventures was the creation of Njeri Illustrated, a design-led brand that creates greeting card and stationery products featuring local city scenes for local people - these are local city scenes that show the beauty and the depth of city life!

At Njeri Illustrated, you can find quality products featuring city-inspired artwork. The designs featured in this catalogue are available as greeting cards, postcards, notecard wallets, art prints and canvas prints. Our products can be found at gift shops and retail chains throughout the UK, abroad and also online! Have a browse through my collection and feel free to let me know what you think of our one-of-a-kind products.

Sincerely,

*Michelle*
