Jewellery care: To keep your Katy Luxton jewellery looking its best, avoid spraying your jewellery with perfume or other cosmetics and remove them before showering or swimming.

Nylon pieces, if they become dirty clean gently with mild detergent and warm water. Over time the colour may fade or change depending on exposure to light and chemicals such as perfume.

3D printed Nylon is strong, light and flexible. There is no known degrading of the material over time. Putting any 3D printed items under pressure, through getting the piece caught, pushing, pulling and twisting of the item can cause breakages.

Katy Luxton Jewellery creates vibrant, playful designs in silver and hand-dyed nylon. Inspired by geometric shapes, mathematical models, and Spirograph patterns, the pieces blend handcrafting techniques with modern 3D printing. Each creation is hand-dyed in bold, colours, celebrating the joy of expressive lines and tactile forms. Katy Luxton Jewellery designs bold collections, from sculptural silver rings to striking, dynamic forms.
