INTRODUCTION

Made and manufactured in the UK, Connock represents the very best in quality and British heritage, delivering distinctive, timeless scents for skin, hair, body and home.

For over 20 years, Amanda Connock has sourced the finest quality ingredients to create unique fragrance collections. Immersed in the family business from a young age, Amanda's passion for scent led to the launch of Connock - a brand that reflects her heritage, expertise and commitment to authenticity in the world of fragrance and beauty.

OUR STORY

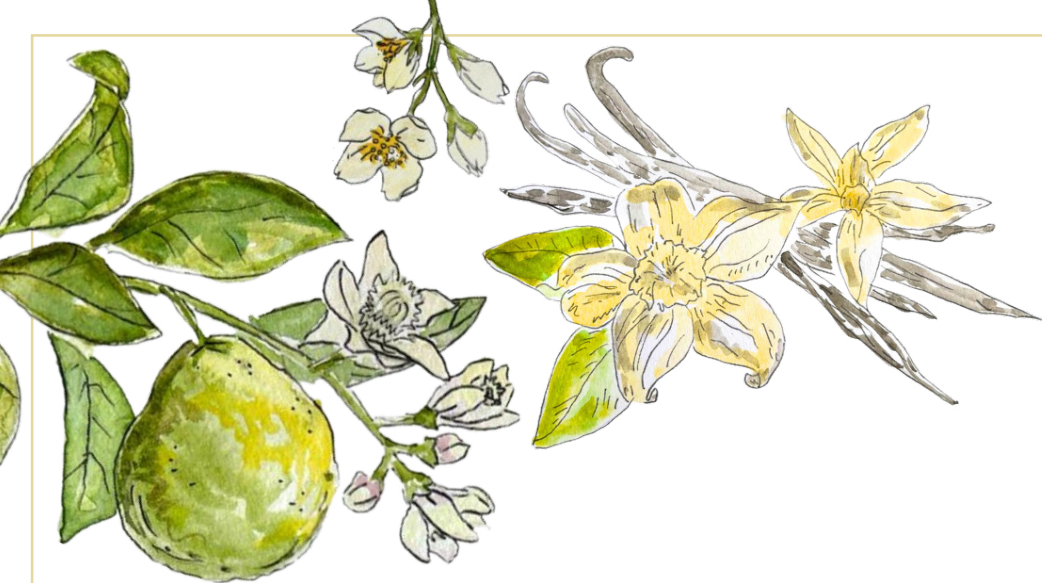

Amanda Connock's childhood was strongly influenced by the beauty world as her parents spent decades sourcing and supplying quality ingredients to the fragrance and cosmetic industries. From a young child, Amanda was fascinated by scent and the effect it has on mood and feeling.

Fresh from University, Amanda began working for the family business although sadly after 4 short years of working alongside her father, he suddenly passed away.

"From the 1970s, my father was a trailblazer - bringing quality and provenance in ingredients to the beauty industry. I'm passionate about continuing to build on his legacy by bringing transparency to the supply chain and sourcing the highest quality ingredients from sustainable sources. This approach sets Connock apart from our competitors."

Connock was born from a desire to hold true to the passion her parents had instilled in her from a young age and is a tribute and celebration of her father's legacy.
