Being Different Makes a Difference

Onesck was founded on the idea
that socks should be sold individually for
freedom to express ourselves and our differences.
Like every individual each sock is unique, bold and vibrant.

SUPER SOFT COTTON & VIBRANT COLOURS

While the concept is fun, we are serious about quality. Crafted from the finest Turkish combed cotton and woven with 200 needles, each Onesck has a high cotton content (80% cotton, 18% elastane, 2% polyamide) This results in a super soft, moisture wicking fabric.

Bought them for the groomsmen for our wedding

Absolutely fantastic socks. All the groomsmen said how comfortable they were. We ordered them in burnt orange and they were exactly the colour in the picture. 10 out of 10.

These are not just socks, they are a philosophy; I don't have to worry about socks mysteriously going missing in the washing anymore. They are also really beautiful. I love them so much 😊

These are lovely and soft. They are a vibrant colour, I had hot pink as our 3 year old loves the colour pink! They are stretchy so make a good fit.

What a great idea. I've been using onesock as gifts for every birthday this year so far and everyone has loved it. Not to mention they fit perfectly on my giant feet. Love the idea, great brand, keep the colours coming!

Really love this concept! I am quite particular about colour coordination but I was bought these as a gift and always get complimented when I wear them. The mixed colours make me look cooler than I actually am and my daughter loves the bright colours too when playing together. For your everyday sock, I highly recommend!

Brilliant concept, excellent product
The socks are excellent quality, really rich colours, and an interesting and unusual concept. They arrived very quickly in a neat little package, easily went through the letter box. I will definitely order again, a lovely idea for presents and so much more interesting than flowers!
