Useful Information

Finishes and Fitting

Our door knocker collection is available in a range of finishes.

Polished brass comes highly polished and will tarnish naturally unless cleaned regularly with a metal cleaner.

Aged brass is patinated in the UK using a chemical-free process. It will continue to age and darken over time. It can be cleaned using a metal cleaner.

If your customer requests a silver or black door knocker, please let us know. We can prepare these finishes to order.

Our door knockers are suitable for wood and solid-core composite doors. Screws and brackets are provided together with fitting instructions.

Care instructions are also provided for the relevant finish.

Display Boards

We provide a range of sizes and design options for display boards. Choose from a rustic wood board or a painted board in cream or dark brown paint. We remain flexible and can provide a size and style to suit your display area.

Please contact us to discuss your requirements.
