

AWARD-WINNING BOTANICAL SKINCARE

Rooted in the wild beauty of Scotland, Raven Botanicals is a high-performance natural beauty brand founded by two sisters. Inspired by a free-range childhood surrounded by art, nature and rescued corvids, the brand blends botanical science with visual storytelling to nourish both skin and soul.

Our spellbinding range is powered by potent plant actives, circular ingredients and a deep respect for the natural world. Plant-based cleansers, serums, facial oils, balms, and masks nourish and care for the skin at all stages of life.
