

it's our planet too

eco fun for little people

PRODUCT CATALOGUE

Our vision is for every child to believe that they have the power to protect our planet

Hello, I'm Kate, founder of *It's Our Planet Too*.

Protecting the Earth shouldn't feel scary or boring. It should feel like an adventure. That's why I created *It's Our Planet Too* - a children's eco brand and *social enterprise* that turns big environmental ideas into fun, inspiring, and accessible activity kits.

As parents we want to protect our children, but it is also our role to prepare and support them. Our *Tool Kits For Eco Heroes* are designed to connect children with our precious planet and inspire them to protect it.

We want to spark *curiosity*, fuel positive action, and show that even the smallest voices can make a big *impact*. After all, the future belongs to them - *it's their planet too!*

Activity kits with a difference

Our award winning **Tool Kits For Eco Heroes** are a box of inspiration and hope for our planet, packed with hours of sustainable fun to help children take action and save our environment. We help children learn about their favourite animals and some of the biggest issues facing the planet and what they can do to make a difference.

**For eco heroes
young and old**

**Inspiring
planet action**

**Exciting
themes**

**4+ hours
of eco fun**

**Easy to follow
instructions**

These paper-based kits are packed with **17** different elements. Inside are exciting arts activities, cool science experiments and yummy recipes. We get children raiding the recycling box and getting messy outside in nature. We share inspirational stories of Earth's heroes, fascinating facts and more! In fact, one of our customers described it as just like **"Blue Peter in a box!"**.

Our **22** themed Tool Kits cover many of the biggest issues facing our planet and are sorted into **5** categories to suit every little eco hero. Whether they're on a mission to battle plastic pollution or standing guard for pandas, there's a green adventure for everyone.

**Hours of
sustainable fun
designed to inspire
planet action**

**Encourages
children to feel
positive about
the future**

**Empowers
children to make
a difference**

**Explains tricky
environmental
concepts in an
engaging way**

100% sustainable

We are committed to sustainable practices, ethical products, minimal waste and having a positive environmental impact.

- ✓ Our products are 100% sustainable & plastic free
- ✓ We use a local, independent printer
- ✓ We print on 100% recycled FSC certified paper or card
- ✓ We print with vegan inks
- ✓ All our packaging is plastic free
- ✓ Our activity boxes are free of more 'stuff'!

We are **Good Market** approved and **People + Planet First** verification by the Social Enterprise World Forum.

We also support the **UN's Sustainable Development Goals** - Quality Education (Goal 4), Responsible consumption and production (Goal 12) and Climate action (Goal 13).

The contents supports the National Curriculum and reinforces the concept of **reduce, reuse and recycle**; using items readily available in the home or recycling box. Our Tool Kits make a **fun** and exciting **eco-led** gift that both **educates** and **gives back**.

Go green

A collection of kits that focus on the impact our actions have on the planet. Packed with ideas on how to be kind to the world and help secure a brighter tomorrow.

A world of waste

Big, bold change starts small – and you've just found the perfect launchpad. The planet is shifting, our children are watching, and now it's time to turn questions into action. This isn't just another activity kit – it's an eco adventure your family can dive into together. Activities include making recycled paper, crafting a megaphone, making a bee hotel and baking banana bread plus much more...

Product SKU: IOPTTK01

Plastic isn't fantastic

Plastic pollution is one of the biggest challenges our planet faces, but learning how to tackle it can be exciting, creative and fun. This is a hands-on mission to help children understand how they can protect the environment. Perfect for curious minds and families ready to take action. Activities include making a no-sew t-shirt bag, crafting plastic free decorations, building a recycled paddle boat and much more...

Product SKU: IOPTTK03

A world of waste

Every bin tells a story – and this inspiring kit turns trash into treasure, showing little eco heroes how the things we throw away can be reused, recycled and even reinvented. Perfect for curious minds, transforming what we throw away into power, awareness, and change. Activities include making mini cork planters, crafting beeswax wraps, stamping recycled gift wrap, making houerous, and much more...

Product SKU: IOPTTK09

Food glorious food

A hands-on journey into the world of what we eat, where it comes from, and how our choices can make a big difference. This kit turns the dinner table into a discovery zone, the kitchen into a mini science lab, and every bite into a chance to care for our planet. Activities include crafting an orangutan puppet, making recycled plant markers, and much more...

Product SKU: IOPTTK15

Love where you live

This isn't just another activity kit – it's a mission to reconnect with the world around us, learning how small actions can make a big difference. Packed with plenty of eco inspiration, it's the perfect mix of creativity, curiosity and caring for the place we call home. Activities include crafting a recycled home, making a bird feeder, learning to filter dirty water, baking savoury muffins and much more...

Product SKU: IOPTTK17

Protect your patch

These kits dive into the amazing world outside your window, unveiling the hidden wonders on your doorstep and showing you how to be a nature superhero.

Incredible insects

This box of discovery helps families explore the mini creatures that keep our planet buzzing. Packed with creative projects, outdoor fun and real science, it's proof that even the smallest species can teach us the biggest lessons about nature. Activities include crafting egg box insects, making an insect pooter, investigating soil bugs, baking little chocolate pots and much more...
