

**Storigraphic is a  
Cambridgeshire-based  
independent design studio  
and sustainable brand  
founded by lifelong best  
friends and designers,  
Nic and Roz.**

Launched in 2020, our vision is to transform the everyday by producing sustainably-led, exclusively designed, high-quality products, accessible to everyone.

We are an independent business that puts principles before profit, investing in UK craftsmanship and helping to build a more sustainable future.

Our design inspiration draws from a vibrant tapestry of influences including pop culture, art history, fashion, mid-century design, and modern architecture. We celebrate the beauty and innovation of heritage design through our modern lens, infusing our collections with colour richness, pattern and narrative across paperware, stationery, gifts and accessories, alongside our interiors and homeware range, Storihome.

We are practising advocates for equity, inclusivity, and diversity. We love what we do and work hard to bring our best every day.

"...one of the most cohesive and beautifully considered collections I've seen. Every piece feels as though it has real longevity — graphically bold, impeccably produced, and underpinned by a thoughtful sustainability story. A true class act from start to finish."

Mary Portas OBE, Brand & Retail Expert, Broadcaster, Activist and Author

## A snapshot of where we've been, what we've made, and where you'll find us next.

2025 saw the launch of three new collections. We went live with our Re-Editions Collection (Volume 1) in January, followed by Symphony Series in May, and an exciting Christmas Collection of seven new prints. Our product range expanded significantly: cork-backed placemats and coasters, serving trays, larger zipped pouches, 2026 weekly diaries and planners, and hybrid journals. We also introduced Wrap Editions 001, our book of papers and Postcard Editions, featuring 18 of our signature prints.

### Reaching new audiences in 2025

Our products found homes in some incredible places this year. The **Barbican**, **Royal Academy**, and **Somerset House** stocked selected pieces from our collections, as well as a number of **independent retailers** across the UK. We exhibited at Top Drawer in January, the London Stationery Show in May and returned to Top Drawer in September for the autumn show.

We were one of just 16 brands chosen for **Thrive Street London** in October, curated by Mary Portas OBE, an experience that connected us with brilliant independent businesses and reinforced why we do what we do.

Mary shared the following about our collections: **"...one of the most cohesive and beautifully considered collections I've seen. Every piece feels as though it has real longevity — graphically bold, impeccably produced, and underpinned by a thoughtful sustainability story. A true class act from start to finish."**

### Recognition and press

We made it to the finals of the **Muddy Stiletto 2025 Awards** for Best Lifestyle Store in Suffolk & Cambs, and the **London Stationery Show Awards** for Best Storage Product of the Year. Recent press coverage included features in the Collagerie, Observer Magazine, Architectural Digest, Independent, House Beautiful, Daily Mirror, Sunday Express, Prima, Metro, Home & Interiors, Good Housekeeping and Ideal Home.

A selection of our wrapping papers appeared in the Christmas gift guide campaign for **Superdrug's The Edit** magazine.

### Open Studio days

We continued our Open Studio tradition throughout the year, welcoming customers to see where and how we work. These days remain some of our favourites — direct conversations with the people who support what we do.

### New for 2026 — we're starting the year with two design collections:

#### Imprint Series

'Every interaction leaves its mark. Like overlapping patterns on a printing press, our experiences layer upon one another — each encounter, conversation, and connection imprinting itself onto what came before.' Imprint Series explores this through bold geometric forms that press, overlap, and respond, creating visual rhythms that mirror the patterns we form in our daily lives. A visual language for how we connect and the marks we leave behind.

The collection launches across wrapping papers, greeting cards, notebooks (set of 3), coasters, placemats, serving trays, and 2027 diaries. Further stationery and homeware pieces will follow in spring 2026.

#### Re-Editions Collection (Volume 2)

Following on from Volume 1, our second Re-Editions collection continues the journey through our design archives. We're reimagining more of our most-loved patterns with fresh colourways and new focal points, giving each design contemporary relevance whilst honouring its origins.

Volume 2 launches with wrapping papers, greeting cards, notebooks (set of 3), and 2027 diaries. Homeware pieces will follow in summer 2026.

#### Planned trade shows

We will be returning to **Top Drawer** for both the January and September shows at Olympia, London. We'll also be at the **London Stationery Show** in May at the Business Design Centre.

## Kinetic Series

Introducing our design collection, Kinetic Series. A series of graphical patterns, developed by layering shapes to form the illusions of scale, dimension and motion. Experimental techniques and overlapping colour combinations capture a design language influenced by kinetic art, the mechanics of motion and the optical effects formed when blending contrasting design disciplines. This cross-category collection features six patterns across sustainably-produced paperware, stationery, accessories and homeware.
