

# ROKA LONDON

SPRING/SUMMER 2026

OUR MISSION

WE’LL HAVE  
**YOUR**  
BACK ALONG  
THE WAY!

We carry people through life,  
not just their things.

Through rush hours and slow  
mornings, breakups to breakthroughs,  
bold moves and big wins.

We bring colour to the chaos. Clarity to  
the noise. Confidence to the everyday.

This isn’t just a product. It’s your  
companion for the journey.

Hello!

Welcome to ROKA London,  
where our story is woven into every product.

One rainy day in London set the stage for the birth of ROKA London, a brand on a mission to create durable, lightweight, and weather-resistant bags for Everyone, for Every Day, for Everything. The name ROKA London was born using a combination of letters from both our surnames, giving it an even more personal touch. Our brand also reflects our values: trust, integrity, and an unwavering enthusiasm for life.

Beyond bags, we’re proud to be B Corp certified, prioritising ‘people, planet, profit’. We are committed to planting trees globally and our partnerships with charitable organisations allow us to make a positive impact in the world.

So, as you navigate through the pages of this catalogue, remember that each bag, backpack, or accessory represents a piece of our story, a reflection of our values, and a promise to contribute to a better world.

Thank you for being a part of our journey and rest assured, we’ll always have your back along the way.

*Emma & Brett*

# REUSE REPURPOSE RECYCLE ↓

CAREFULLY DESIGNED. CONSCIOUSLY MADE.

At ROKA London, sustainability isn't a side note, it's stitched into everything we do.

We believe in progress over perfection, and in creating products that show up for people and the planet.

Our aim is simple: to reduce carbon and manufacturing emissions by rethinking how we create, use, and reuse. That means turning old materials into new beginnings, without compromising on colour, comfort, or design.

WHAT WE'RE MADE OF

- Our **recycled canvas** starts with discarded plastic bottles, giving new life to materials that would otherwise pollute the planet.
- Our **recycled nylon** comes from pre-consumer waste: offcuts, trimmings, and scraps that would otherwise be thrown away.
- Our **ripstop and taslon** fabrics are thoughtfully sourced and chosen for their durability and reduced impact.

Every bag is part of the bigger picture: built to carry joy, with less environmental cost.

MINDFUL IN THE DETAILS

- Our poly bags are **fully decomposable**, so even our packaging aligns with our values.
- Our collections are made to **last longer, work harder, and waste less.**
- And we keep improving, one stitch, one season, one smarter decision at a time.

**Having Care** isn't just a phrase. It's our promise – to you, to our team, and to the world we all share.

LIFE'S A JOURNEY.  
PACK FOR IT.
