BATHROOM

THE SEASON OF THE TABLE!

The season for hosting and gifting has arrived!

Our new and already beloved collections are made to set a beautiful table in seconds — the kind that delights your guests, earns compliments, and gets photographed before anyone sits down.

And no more worrying about what to gift. Our tea towels and smaller table linens bring charm to any festive kitchen — as useful as they are lovely — and make the kind of gift friends and family will truly adore.

Why 100% natural linen?

Linen is a 100% natural, plant-based fabric — not only a luxury textile valued for centuries, but also one that's friendly to our bodies and to nature. We've chosen to work exclusively with linen. Here are some reasons why you should choose it too.

WATER SAVING

All LINOROOM® products are made from 100% pure European linen. Natural linen is a traditional expression of luxury — but it's also a truly sustainable fabric. Its cultivation needs no irrigation and no fertilizing, unlike other fibers.

BIODEGRADABLE

Linen is plant-based and therefore 100% renewable and 100% biodegradable. The whole plant is used — for textile or food — leaving no polluting residue.

ANTIBACTERIAL

Linen is naturally germ-resistant. That's why linen home textiles, like kitchen towels, stay hygienic and never develop bad odours. Linen is also hypoallergenic, making it safe for sensitive and allergy-prone skin.

EXTRA-DURABLE

One of the strongest natural fibers, linen is remarkably long-lasting. Your linen will only get nicer with years of use — helping you slow down on consumption.

Our products are made exclusively from 100% natural linen fabric, OEKO-TEX® certified for harmful substances.

100% EUROPEAN LINEN

Linen is our national textile — we know it, and we love it. That's why we never looked overseas for something we already know best.

Every piece is made from 100% natural European linen, crafted here in Lithuania. We want people to enjoy the quality and beauty of this historic fabric, while benefiting from its natural qualities — healthy for us, and for the earth.

WE INNOVATE. YOU ENJOY.

No two dinner tables should ever look the same. LINOROOM® brings a creative touch to table linens with our signature concept: six different napkin designs in a single set. The result is a table full of surprise and delight — and guests who feel a little more honoured, a little more unique, with a napkin that feels almost made for them.

PAINTING-STYLE DESIGN

Every design of our nature-inspired linens is a bit like an artist's canvas. Never a repetitive pattern — every petal, every leaf, is placed exactly where it will look loveliest once set on your table. These designs demand manual work and special attention. But we believe the extra effort is worth it — linens far from ordinary, for a home with attitude.
