About MAP

Mother Apothecary The Founder.

Created by founder and IFPA qualified Aromatherapist Fay Penate. MAP started as an extension of her studies in aromatherapy & essential oil science.

With the realisation that our own environments benefit from a re-connection with nature. This approach to bringing nature into our home has led to the growth of a unique fragrance range that draws on this inspiration from nature and botanicals. Creating a truly original, hand crafted product that has a beauty in its less is more approach.

Developed and made in our studio, MAP is an alternative modern fragrance brand and creative studio that promotes small batch, hand crafted natural fragrances.

Inspired by Nature
and Botanicals.

Our Story

Natural Perfumer Studies.

Since the formation of MAP, the brands evolution into natural fragrances has been a seamless one.

Fay has studied perfumery with the prestigious Isabelle Gelle, a renowned French-based Haute parfumerie, and has taken those studies to hone her craft, creating truly unique and original scents.

The main source of inspiration always starts with a moment, or time, where a memory of a scent becomes the bedrock of what we're creating. It's important that every scent has real authenticity and meaning behind it. This is what makes MAP unique and different.

Manufacturing Process

From the Studio Small batch.

All of our Aromatherapy and Natural fragrance products are developed in our studio, using 100% natural essential oil blends.

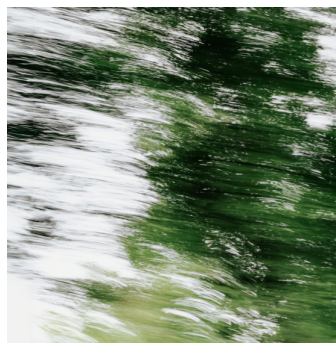

The packaging is committed to zero plastic, with all materials either recycled or from responsibly sourced paper suppliers.

As a IFPA Aromatherapist and qualified Perfumer, the essential oils used in all of our products have been carefully selected for their therapeutic and natural properties.

Product Range

Individually Unique Candles & Fragrances.

Our Aromatherapy natural wax candles are offered in a range of 3 different groups.

De-Stress & Calm | Rest | Uplift & Energise.

The Home Fragrances and Natural Perfumes are developed and inspired from moments in nature and the scents are developed using natural essential oils.

A still life photograph of a desk or table. In the center is a stack of four books. On top of the books are a clear glass bottle of perfume with a black cap and a dark glass jar with a lid. To the right of the jar is a small, clear glass vase containing several sprigs of dried lavender. To the left of the books is a dark, carved wooden object with intricate patterns. The background is a plain, light-colored wall. The text "Bringing the gentle presence of nature into your home." is overlaid in the center of the image.

Bringing the gentle presence of nature
into your home.
