

**Objectables
Autumn 26**

More stupid cards. Yay!

You lucky people, just when you thought you had had enough of Objectables and our daft cards here we are again with another batch of irresistible nonsense.

There are so many beautiful cut out cards around we thought we should get in on the act and launch some horrible ones with our Cut The Crap range. We also have a new range of cards offering very specific Birthday Wishes and we have finally added age milestones to our Fuck it cards.

ENJOY!

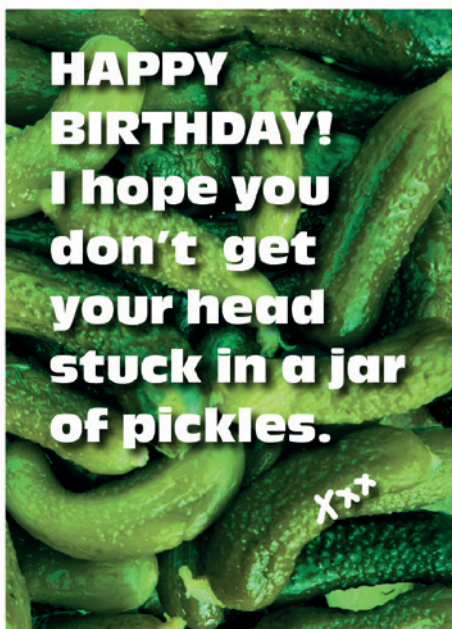

Objectables is a silly card publishers based in an even sillier shop in Folkestone, Kent. These cards in this brochure are just some of the many hundreds we publish, this QR code will take you to our website and all our other brochures or sign up to a trade account at www.objectabletrade.co.uk

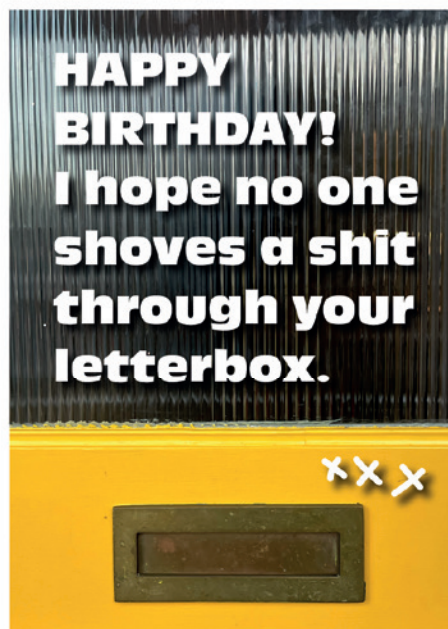

BIRTHDAY WISHES

We love a card that seems horrible but is actually lovely, I mean yes, sending someone a birthday wish that they don't accidentally eat a boiled penis might seem weird but its way less weird than wishing that they do accidentally eat a boiled penis.
