CREATING YOUR LITTLE PIECE OF HAPPY. CRAFTED WITH LOVE SLOWLY.

LOVINGSL

Loving Slowly is a craft-led lifestyle brand shaped by emotion, intention, and human connection.
We make objects slowly and with care. pieces that feel warm, meaningful, and lived-in. Built on ethical, women-first practices, we honour India's rich craft traditions while speaking to a modern, global way of living.
We are inspired from JOY. There is so much around in our everyday life that brings us joy. Looking at flowers blooming, Birds chirping, your first sip of coffee early in the morning, a dip in the ocean, playing, friendships, travel, a bite of your favourite food, everything that brings a smile on your face, that is what loving slowly is inspired from.

Verdant Forms is a garden shaped by hand, an exploration of growth, colour, and softness. Inspired by leaves, blooms, and the quiet geometry of nature, this collection translates the feeling of a garden into sculptural textiles.

Made with care and intention, these are pieces that invite the outdoors inward and allow a space to grow warm, layered, and deeply lived in.

HANDS & HOURS
Made in time. Not on time.

Together, we've grown from one artisan to a collective of 40 women across different villages in two years. We've traveled and curated a team of our own, trained and up-skilled them, gave them their first employment, tackled taxing production challenges. Yet every hurdle brings joy, reminding us why we started.

thread by thread, dream by dream.

Our love for sacred spaces inspired Loving Slowly's artisanal home furnishings: pieces that bring calm to a serious world, fostering belonging, endless comfort, and smiles that linger. It’s all about joy isn’t it? We want you to feel the joy that comes from their home to yours. This isn't just a brand.

It's our community.

It's our purpose.

It's proof that beauty blooms from embracing slow.
