

# SPRING / SUMMER COLLECTION

This unique collection of 3D printed jewellery is inspired by a love of geometric lines, bold colours and the creative use of technology.

Designed and 3D printed inhouse in plant-based resin made from soybean oil. All packaging is plastic-free and fully recyclable.

Minimum order £150  
Free UK mainland delivery  
Lead time 28 days

# ORDERING PROCESS

Scan QR code to download an order form, or visit [www.sarahjoy.design/orderform](http://www.sarahjoy.design/orderform).

Submit your order via email to [hello@sarahjoy.design](mailto:hello@sarahjoy.design). Please allow 28 days from placing order to dispatch.

# TERMS & CONDITIONS

## Minimum Order

Minimum order £150 + p&p

## Wholesale pricing

All prices are listed in Pounds Sterling (GBP). Prices are subject to change without notice. Sarah Joy Jewellery is not VAT registered.

## Payment terms

The following payment methods are accepted:

- Bank transfer (BACS)
- Credit card

All wholesale customers are required to pay for their orders in full prior to shipment.

## Shipping

FREE shipping is offered on all orders to UK Mainland. All orders are dispatched from London; delivery in 3-4 working days. For wholesale orders outside UK Mainland shipping will be charged on a cost-recovery basis.

## Returns policy

We cannot accept returns on wholesale goods. We will only accept items back if they are deemed to be faulty or defective. No refunds will be issued; damaged or defective items will be replaced free of charge. Please inspect all shipments upon arrival and make contact within 5 days of receipt of damaged or defective packages.

## Cancellations

Cancellations are not accepted on wholesale orders. Any changes to orders must be emailed to [hello@sarahjoy.design](mailto:hello@sarahjoy.design) within 48 hours.

## Disclaimer

Due to the nature of the printing and finishing process, there may be slight imperfections visible in our products, but we consider these to be features of the innovative techniques used. Colours may vary slightly across batches as the resins are mixed by hand.
