## **Definition of Terms**

### On the Record

Information may be quoted directly and attributed to the official by name and title.

### On Background

The official's remarks may be quoted directly or paraphrased and are attributed to a "Subject matter expert" or a "GSF Official," as mutually determined by the official and the media member.

### On Deep Background

The source cannot be quoted or identified in any manner, not even as "an unnamed source." The information is usually couched in such phrases as "it is understood that" or "it has been learned." The information may be used to help present the story or to gain a better understanding of the subject, but the knowledge is that of the reporter, not the source.

### Off the Record

Nothing of what the journalist is told may be used in the story. The information is meant only for the education of the reporter.

### Chatham House Rule

Journalists are free to use the information received, but neither the identity nor the affiliation of the speaker(s), nor that of any other participant, may be revealed.
