

STAND GUIDELINES: SHELL SCHEME

If you have booked a shell scheme stand, this section explains what is included and what options you have to enhance your stand.

The stand will be a Octanorm system with white walls of 2.5m. The shell scheme will include walls, fascia, nameboard and carpet. If you would like to attach to the shell panel double-sided Velcro sticky pads.

The Works are the appointed main contractor for GSOFSymposium Europe 2022. More information on the main contact will be updated shortly. In the meantime, if you have any queries, please contact **The Works**, our official contractor on exhibition@theworksevents.com

Please find the following specification sheet for the shell scheme.

- The metal structure will be grey/aluminium.
- The panels will be white.
- The full height of a wall is 2.5 m.
- The aluminium vertical posts are 4 cm wide.

The seen size for graphics is:

- The visible graphic size of one wall panel is 95 x 225.5 cm (W x H)
- The visible graphic size of the illuminated fascias is 154.5 x 26.5 cm (W x H)
