

EXHIBITOR ADVICE

PART III: STAND HYGIENE, HEALTH AND SAFETY

7-9 June
Rotterdam, the Netherlands

Throughout the venue, there will be hand washing facilities and the venue and organiser will ensure sufficient measures are in place for the common areas. However, exhibitors will be responsible for their own stand cleaning and hygiene measures.

Hand sanitiser

Consider providing your own hand sanitiser on your stand and additional products.

Touchpoint Cleaning

Regular cleaning of touchpoints, products, doors, pens and equipment after every use.

Stand Deep Clean

Ensure a final deeper clean of all items, surfaces, products and spaces at the end of each day.

Personal Protective Equipment (PPE)

Please provide your own where necessary. Check with the venue and organiser regulations on what is required. Think about what activity is on your stand and if anything additional is required.

Documentation

Your documentation will need to include the control measures you will be putting in place to limit the transmission of COVID-19. The simplest way to achieve this is to have a COVID specific section within your existing risk assessment.

Brief your team

Ensure you have communicated to your team the arrangements in place and shared the control measures that they are required to undertake.

If you have any specific questions about your participation at UDT 2022, please contact a member of our show team:
