VVDN TECHNOLOGIES

GLOBAL PROVIDER OF

SOFTWARE, PRODUCT ENGINEERING & ELECTRONICS MANUFACTURING

SERVICES & SOLUTIONS

ADAPTIVE COMPUTE & COMMS | NETWORKING & Wi-Fi | IOT | VISION | AUTOMOTIVE | CLOUD & APPS

VVDN TOOLS

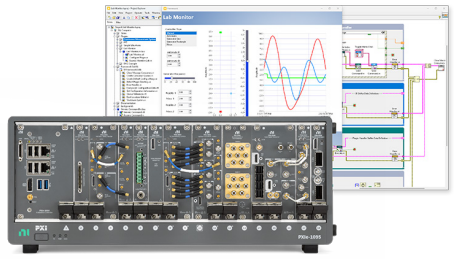

Powered by VVDN Technologies Pvt. Ltd.

VVDN Tools - Powered by VVDN Technologies, is a One-Stop Solution Provider for Embedded Development Tools, Simulation Software and Test & Measuring Instruments. Our product portfolio comprises of a broad range of development tools, including debuggers, thermal integrity and embedded security solutions. Additionally, we offer a wide selection of soldering & desoldering stations, advanced engineering simulation software, as well as other power testing & measurement instruments and RF monitoring solution, completing our comprehensive offering.

NATIONAL INSTRUMENTS (NI)

For more than 40 years, NI, formerly National Instruments Corporation, has been a producer of automated test & measurement equipment and virtual instrumentation software. The common applications include data acquisition, instrument control, and machine vision which helped engineers solve the world's toughest challenges.

Featured Products

- DAQ Products
- PXI Systems
- LabVIEW

KIKUSUI

Established in 1935, Japan's independent manufacturer specializing and pioneering in the field of power supply and measurement. From the dual perspective of power supply technology and measurement technology, has successively created testing and evaluation solutions to support modern manufacturing, which is renowned for its high quality.

Featured Products

- DC Power Supplies
- AC/DC Electronic Loads
- Battery Testers
- Harmonics & Flicker Testers
- AC Power Supplies
- Electrical Safety Testers
- EMC Testers

ROHDE & SCHWARZ

Rohde & Schwarz develops, produces, and markets a wide range of electronic capital goods in all of its business fields, including wireless communications and RF test and measurement, broadcast and media, air traffic control and military radio communications, cyber security and network technology.

Featured Products

- Oscilloscopes
- Network Analyzers
- Signal & Spectrum Analyzers
- Meters & Counters
- Signal Generators
- Power Meters & Voltmeter
- DC Power Supplies
- EMC & Field Strength Solutions

IGOS

Featured Products

- Screen Rooms
- Chambers
- Enclosures
- Cabinets
- Boxes
- RF Tent & Fabrics

WELLER

Weller is the global leader in manual soldering technology and offers complete benchtop solutions like soldering, de-soldering, rework, hot air, fume extraction and precision tools like cutters, pliers and tweezers. The German technology with application-oriented solutions and a world-class sales and service network.

Weller is unique as the brand offers solutions as per customer requirements with their performance, technology and efficiency product lines.

Featured Products

- Soldering Stations
- Rework Stations
- Fume Extraction
- Pliers
- Precision Tools
- Desoldering Stations
- Solder Wires
- Cutter
- Filtration
- Tweezers

PICO

Featured Products

- Pico Oscilloscope
- RF Product
- Data Loggers and Accessories

NGI

Featured Products

- AC/DC Grid Simulators
- Bi-Directional Power Sources
- Battery Simulators
- Semiconductor Test Instruments
- Specialized Instruments
- NXI Modular Instruments

HIOKI

Featured Products

- Data Acquisition, Oscilloscopes, Memory Recorders
- LCR Meters, Impedance Analyzers, Capacitance Meters
- Super Megohmmeters, Electrometers, Picoammeters
- Current Probes/Sensors, Voltage Probes, CAN Sensors
- Power Meters, Power Analyzers
- Resistance Meters, Battery Testers

VVDN TOOLS
Powered by VVDN Technologies Pvt. Ltd.

VVDN TECHNOLOGIES

CHROMA

Featured Products

- Server Power and Backup Battery Unit (BBU) Test Solutions
- Electric Vehicle Test Solutions
- Battery Test & Automation Solutions
- Passive Component Test Solutions
- Electrical Safety Test Solutions
- FPD (Flat Panel Display) Test Solutions
- Photonics Test Solutions

SEGGER

SEGGER is a full-range supplier in Embedded Systems, producing cutting-edge RTOS and Software Libraries, offering a full set of software tools and hardware tools (for development and production). SEGGER's J-Link debugs probes, with Ozone the accompanying debugger and performance analyzer and Embedded Studio the powerful cross-platform C/C++ IDE, are available to support developers in creating their own embedded systems.

Featured Products

Software Solutions

- Embedded Studio
- RTOS & Middlewares

Debug & Trace Probes

- J-Link & J-Trace Debug Probes
- Flasher/In-Circuit Programmers

ESD ELECTRONICS

- ASTRE

Featured Products

- CAN Interfaces
- Gateways and Bridges
- Embedded Design Custom Dev.
- I/O modules for CAN & EtherCAT
- EtherCAT
- Software
- CPU Boards and Modules
- Technical Reports

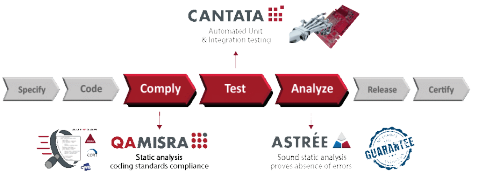

QA SYSTEMS

Featured Products

Static Analysis Tools

Software Testing Tools

- Cantata
- Cantata Team Reporting
- Ada TEST 95
