Testing Expo China 20 YEARS
Automotive

Powered by
Vehicle Tech Week China

Celebrating its 20th anniversary in 2026, Testing Expo China – Automotive reaffirmed its position as China's leading event for automotive testing, development and validation technologies.

Held in Shanghai, the event brought together OEMs, Tier 1 suppliers, engineering teams and technology providers working across the automotive development landscape.

As China continues to advance electric vehicles, intelligent mobility and autonomous driving, the show provided a focused platform for solutions spanning ADAS and autonomous vehicle testing, electric and hybrid powertrain validation, battery and range testing, EMI/EMC, NVH, and full-vehicle, component and systems development.
