

Price List

※3D model / CAD conversion will incur additional charges.
 ※List price does not include tax.

X·Y 2direction
 More than $\Phi 301\text{mm}$ less than $\Phi 500\text{mm}$
 Z direction less than $H=700\text{mm}$

X·Y 2direction
 More than $\Phi 201\text{mm}$ less than $\Phi 300$
 Z direction less than $H=450\text{mm}$

X·Y·Z 3 direction
 Less than $\Phi 200\text{mm}$

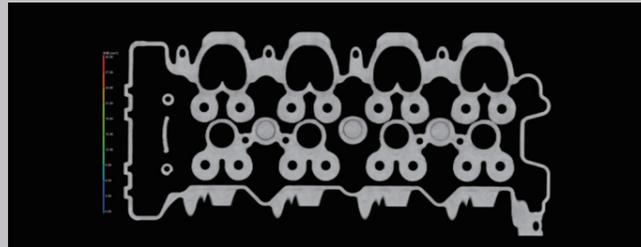

230kV-FPD	¥60,000 ~	¥80,000 ~	¥120,000 ~
450kV-FPD	¥100,000 ~	¥180,000 ~	¥240,000 ~
450kV-LiD	¥120,000 ~	¥200,000 ~	¥300,000 ~

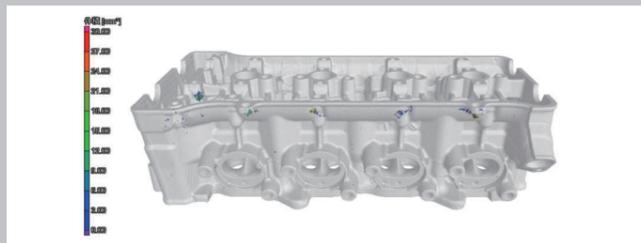

The package contents of the above price (Internal quality only)

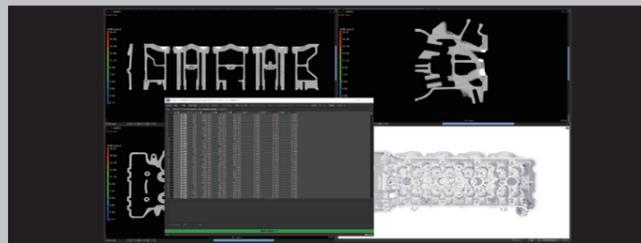

〈Main body STL creation〉※Simple conversion

〈X·Y·Z CT picture〉

〈3D moving image with translucency〉

〈Defect extraction · Analysis report〉

Reverse engineering

It is possible to create a 3D model that faithfully reproduces the internal structure and supports CAD conversion.

3D model creation example by Reverse engineering

〈V S A system〉

Each part

Inside the motor

Inside the valve body

〈Turbocharger for automobiles〉

〈Fuel injector for diesel vehicle〉
