

# DAQ system for car tests

AV040 [www.avrnd.eu](http://www.avrnd.eu)

## DAQ system:

- ▶ is designed for dynamic measurements during car drive tests
- ▶ is equipped with SW for automatic undesirable sound recognition from brake system
- ▶ is using measurement cards for dynamic measurement (acceleration, sound, etc.), CAN communication and temperature measurement
- ▶ is ready for future extension with additional measurement cards

Type	DAQ system for car tests
Serial number	AV040
Year of manufacture	09/2018
Weight	11 kg
Current	5 A
Voltage	12 V DC
