

EMC TEST EQUIPMENT AND SERVICES THE SECRET FOR **ABSOLUTE VALUE**

Partner Companies:

HAEFELY

Haefely AG

Founded in 1904, over a century of history of producing only the highest in quality transient EMC test equipment. Testing to standards: Surge, EFT, Voltage Dips & Interrupts, Magnetic immunity, and ESD.

montena

Montena Technology sa.

Is specializing in advanced solutions for HEMP & electromagnetic compatibility (EMC), high-voltage pulse generation, and MIL-STD testing. Equipment for EMP, CS115, CS116, CS114, RS105, pulse measurement, Analog Fiber-optic.

BOLAB Systems GmbH

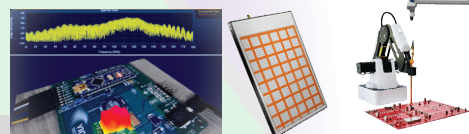

Automotive HV 500, 1000, 1500, and 2000V systems 100-5k Amps for ISO 21498, ISO 7637-4, LV123, Automotive LV testing to ISO 7637-2, ISO 16750-2, LV124, LV148, FORD, GM, Stellantis, VW, BMW. Systems from 40- 2000Amps!

**Y.I.C.
TECHNOLOGIES**

Y.I.C. Technologies

Specializing in pre-compliance solutions for board level EMI diagnosis. EMScan offers fast reliable results without an EMC Chamber. New technology also allows for far-field antenna measurement.

EMZER Technological Solutions, S.L.

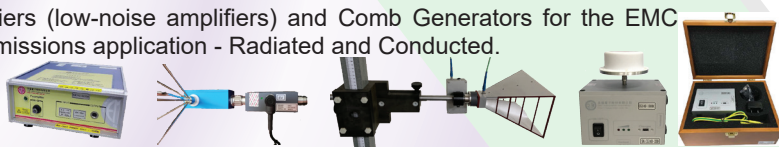

EMSCOPE - the only 2x integrated real time receivers for easy fast power diagnostics and AD/DC filter development. Optional built in LISN and 3phase testing. 3-Phase Test system with 4x integrated real time receivers!

**EMC
Instruments Co., Ltd.**

EMC Instrumentation Corp

Offers High Quality Pre-Amplifiers (low-noise amplifiers) and Comb Generators for the EMC market with options for every emissions application - Radiated and Conducted.

The Conformity Assessment Business

Offering hard to find test equipment items for Military EMC, Commercial (IEC) Test aids, and small custom applications. Magnetic loops, Quick Check Surge, Burst, Dips, ESD, LISNs and DEF-STAN Generators

LUMILOOP GmbH

Power-over-Fiber (PoF) technology with state-of-the-art low-power electronics to design and manufacture high-performance electronic measurement devices which can be applied in the field of Electromagnetic Compatibility (EMC) as well as other RF applications. Field Probes and Power Meters

messtechnik
EMC Test and Measuring Systems

mk-messtechnik GmbH

Since 1999, develops and produces electronic test and measuring systems with high immunity against electromagnetic fields. Camera and Audio systems, OptoLINKs, CAN, USB, Ethernet, LIN, 1394, RS232, TTL, Analog up to 100kHz - 50MHz, UART, DC Power

Schlöder GmbH

Manufacturer of EMC test equipment for over 30 years. Offering ESD test systems, Conducted RF (BCI) Generators and Magnetic field generators.

IEC 61000-4-6, -4-39, MIL-STD RS101, CS101, DO160 Sec18,19,ISO 11452-4, -8

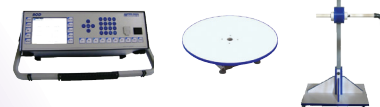

Langer EMV Technik

Pre-compliance tools for testing ICs, Chips, Pins. Specialized near field probes, immunity injection

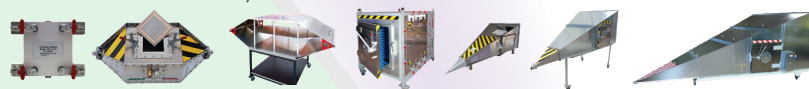

Maturo GmbH

Antenna Masts, Turntables, Positioners, Dynamometers, OTA, Cable Slides, If it needs to move we can help.

GtemCell.com

Offering an extensive list of Shielding Products: GTEM Cells, TEM Cells, Open TEM Cells, IC Test Cells, Shielded Boxes and Anechoic Shielded enclosures, and Reverberation Chambers.

SCHWARZBECK Mess-Elektronik

SCHWARZBECK is the worlds most known manufacturer for EMC and RF antennas and accessories. Their products are built by engineers for engineers. Offering superior design and quality for meeting your testing needs.

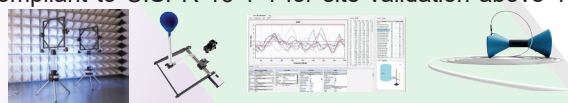

HILO-TEST GmbH

Founded in 1978, we are the largest and oldest German manufacturer of EMC devices with a very wide range of Conducted immunity and HV products.

Seibersdorf laboratories GmbH

Antennas - Accuracy on the highest level, Fully compliant to CISPR 16-1-4 for site validation above 1 GHz and below 30MHz

TekBox Digital Solutions Vietnam Co. Ltd.

EMC PRE-COMPLIANCE PRODUCTS- Our design activities have been confronting us with the importance of carrying out EMC pre-compliance testing in house. Probes, Comb Generators, Shielded tents, Cables, CDNs, LISNs, and more.

Absolute EMC Lic.

Building a reputation of honesty and being responsive to customers before and after the sale. By offering all of the above Partners' Products with a knowable sales force and local support. We also offer items to help support your testing needs such as EMC Test Tables; Wood and Foam, EUT/DUT Support items, low cost Tripod and Monopole systems. EMC RF coax cables. We have vast experience in test system design and build to use your preferred equipment or our Partners. We provide all systems from small pre-compliant turnkey conducted or radiated emissions to full Lab setups for full compliance testing.
