# Alcohol Hand Sanitiser

# Alcohol Hand Sanitiser

**Instructions for use:** Dispense the required amount of solution onto dry palms to cover all areas of the hands. Rub the solution into the hands until the solution has dried from the hands. Do not use water or soap. Clean inside the nails and between fingers for best results.

**CAUTION:** For external use only. Flammable liquid and vapour. Causes serious eye irritation. In case medical advice is needed, bring the product container or label with you. Dispose contents / container in accordance with local / regional regulations.

**Gebrauchsanweisung:**  
Zum hygienischen Händewaschen werden 2-3 ml des Produkts in die Handfläche gegeben. Mindestens 30 Sekunden. Bis die Hände und Handflächen verwendet werden. Waschen Sie die Innenseite der Nägel zwischen den Fingern und allen Innen- und Außenflächen.

**Mode d'emploi :**  
Verser 3 ml sur mains propres et sèches. Frotter durant 30 secondes mains, poignets, espaces interdigitaux, pourtour des ongles. Ne pas rincer.

**EN CAS DE CONTACT AVEC LES YEUX:**  
Rincer avec précaution à l'eau pendant plusieurs minutes.

**Précautions d'utilisation:** A usage externe sur peau saine. Tenir hors de portée des enfants. Maintenir le récipient fermé de manière étanche. Tenir à l'écart de la chaleur.

**Modo d'uso :** Versare 3ml sulle mani pulite ed asciutte. Massaggiare 30 secondi, mani, polsi, spazi interdigitali, unghie. Non risciacquare.

**IN CASO DI CONTATTO CON GLI OCCHI:**  
Sciacquare con acqua qualche minuto.

**Precauzioni d'uso:** Uso esterno : su pelle sana. Tenere fuori dalla portata dei bambini. Riciclare il flacone dopo l'uso. Tenere lontano da fonti di calore.

# KN95 FFP2 Mask

Certification/ Class (Standard)	KN95 (GB2626-2006)
Filter performance – (must be $\geq X\%$ efficient)	$\geq 95\%$
Test agent	NaCl
Flow rate	85 L/min
Total inward leakage (TIL)* – tested on human subjects each performing exercises	$\leq 8\%$ leakage (arithmetic mean)
Inhalation resistance – max pressure drop	$\leq 350$ Pa
Flow rate	85 L/min
Exhalation resistance - max pressure drop	$\leq 250$ Pa
Flow rate	85 L/min
Exhalation valve leakage requirement	Depressurization to 0 Pa $\geq 20$ sec
Force applied	-1180 Pa
CO <sub>2</sub> clearance requirement	$\leq 1\%$

# PPE Gown

- CE certified
- EN14126, EN13982, EN13034, EN1149 compliant
- Sterile
- Splash and flame proof
- ISO approved manufacturer
- Non-woven material
- One piece material, no stitching
- Knitted cuffs
- 50 gram
- 152cm x 80cm
- Breathable and comfortable
- Shipment by airfreight

# PPE Gown

# PPE Body Suit

- CE certified
- EN14126, EN13982, EN13034, EN1149 complian
- Sterile
- Splash and flame proof
