

## Panduit Launches Next Generation FlexFusion™ Cabinet

***FlexFusion™ Cabinet is a next-generation cabinet with custom configurations to meet your network needs.***

April 21, 2021 — Panduit has launched the exciting new FlexFusion™ Cabinet that can be custom configured to specific needs in the Data Center environment. FlexFusion™ Cabinets offer a unique universal platform for all types of data centers and servicing needs including Hyperscale, Edge and Multi-Tenant Data Center. Built with best-in-class weight load of 3,500 lbs. and doors with maximum air flow of 80%, FlexFusion™ can tackle your most challenging cabinet installations. Whether it's for server, network or hybrid applications, FlexFusion™ Cabinets deliver performance to keep your networks running at optimal efficiency.

“We listened to our customers needs for more flexibility in the data center and as a result, we are excited to launch the FlexFusion™ Cabinet. Through extensive research, we have discovered that customers desire a configurable cabinet that can grow as network demands evolve,” states Matt Paciorek, Group Manager, Converged Infrastructure Solutions. “Data center cabinets are increasing in density and storage capacity, so we have added additional thermal enhancements and integrated intelligence. We are all very excited for the FlexFusion™ Cabinet, as it is tailored specifically to customer’s needs.”

The FlexFusion™ Cabinet can be custom configured using the configurator tool found by [clicking here](#). For more information about the FlexFusion™ Cabinet, visit [www.panduit.com/FlexFusion](http://www.panduit.com/FlexFusion).

### **About Panduit**

*Since 1955, Panduit's culture of curiosity and passion for problem solving have enabled more meaningful connections between companies' business goals and their marketplace success. Panduit creates innovative electrical and network infrastructure solutions for enterprise-wide environments, from the data center to the telecom room, from the desktop to the plant floor. Headquartered in Tinley Park, IL, USA and operating in 112 global locations, Panduit's proven reputation for quality and technology leadership, coupled with a robust partner ecosystem, helps support, sustain, and empower business growth in a connected world.
