

DIGITAL HEALTHCARE SHOW

CO-LOCATED WITH:

THE
HEALTHCARE
SHOW

THE RESIDENTIAL
& HOME CARE
SHOW

PART OF:

HEALTH
PLUS
CARE

**The most significant and innovative
UK event for healthcare professionals
looking to revolutionise the NHS through
the use of data, analytics and technology**

18-19 May 2022, London ExCeL

**Back by popular demand after a two-year pandemic
enforced absence, The Digital Healthcare Show returns to
provide you with opportunities to gain your necessary CPD
points free of charge.**

2022 is a year to reflect on what's happened during Covid-19,
what we have learned, and where we're headed next. Our
programme incorporates examples of best practice and
innovation, which is having a transformative effect on how
we deliver healthcare.

National LTP commitments

- Comprehensive digitisation of the health and care system
- Locally based shared records supporting high quality care
- Digitally skilled workforce, supported by those with transformation skills
- Centrally delivered capabilities, where necessary
- Enabling a digital ecosystem, including assurance of digital tools and services
- Digital care plans and Personal Health Records available to patients

Free for healthcare professionals & 12 hours of CPD accredited content

The Digital Healthcare Show offers free content and training to benefit CIOs, CCIOs, senior IT leaders and clinicians from the NHS, Local Government, ICSs and Primary Care who are passionate about furthering the technological advancements within the sector. The content is curated with the assistance of a range of experts and input from key organisations such as: NHS England and NHS Improvement, NICE, CQC, Health Education England and the AHSN Network. There are dedicated theatres for everyone – and did we mention is FREE for healthcare professionals?

Why you should attend...

- ✓ **Earn 12 hours of accredited CPD points** to support your continuing professional development
- ✓ **Specially curated practical content** geared around digital transformation, data and analytics, technology enabled care – all applicable best practice to implement in your own organisation
- ✓ **Essential networking with over 6,000 of your peers** – vital face-to-face engagement at last!
- ✓ **The go to gathering of technology leaders in healthcare** with strong involvement from Chime, BCS, NHS Digital and more. With 4 theatres and more than 200 sessions, there really is essential learning for everyone
- ✓ **Hear excellent examples of innovation** around VR and AI but in a real, practical context – properly demystified and completely applicable to your organisation
