UNLEASH YOUR POTENTIAL

The veterinary profession's favourite event is back this 17-18 November at ExCeL London. Over two days, you will get the insights and inspiration you need to transform your practice.

The London Vet Show will enable you to tackle the clinical conundrums and big issues you face and enable your team to give better animal care.

There's something for everyone at the London Vet Show. Session topics ranging from small and large animal medicine, exotics, farm, equine and practice management to veterinary nursing and exciting industry innovations.

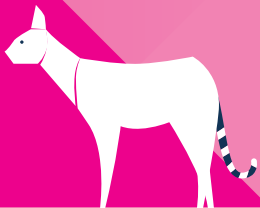

This is your unmatched opportunity to engage with and learn from leading thinkers and visionaries in veterinary care.

*It's back,
bigger and
better than
ever before*

ROYAL VETERINARY COLLEGE CLINICAL THEATRE 1, 2 & 3 PREVIEW

This is just a taster of what to expect in the world-famous small animal streams at the London Vet Show. This vast programme features some of the best veterinary educators in the world. This year, Professor Jill Maddison has programmed two mini-themes: The *vet/nurse team* and *Why not*.

The “Why not?” mini-theme is about the personal mistakes speakers have made and how you can avoid them.

Featuring five unmissable sessions from Mark Papich.

Professor of Clinical Pharmacology, College of Veterinary Medicine, North Carolina State University, Raleigh, NC

SUBJECT

Drug dose adjustments for emergency & critical care patients

Why not? Drug interactions & incompatibilities

Feline pharmacology: why cats are not just small dogs

Drugs for chronic pain - what to give beyond NSAIDs?

Top 10 myths in drug therapy

Education Partner:

RVC Royal
Veterinary
College
University of London

- Exhibitor Showcase

"The London Vet Show is a really friendly and interactive way of getting CPD. It's really nice to be able to get training on different topics and not have to go to different locations. It's great to get a broad overview and then be able to narrow it down to more niche areas."

2021 Attendee, Vet, Vets4Pets Bournemouth

**The beauty of the London
Vet Show is that it evolves
with the veterinary
profession. We have new
and exciting features
coming to the show for
the first time in 2022.**

NEW FEATURES

We are delighted to host the **International Veterinary Emergency & Critical Care Society** for a half day symposium at the London Vet Show. This cutting-edge conference will give you the very best and latest tools and treatment techniques for seriously ill or injured animals.

The **Register of Animal Musculoskeletal Practitioners** is bringing together a community of dynamic veterinary professionals for two days of MSK learning. If you are interested in exploring chiropractic, osteopathy or physiotherapy and other techniques - come along and get hands on!

**Book your place before
29th April at the special rate
of just £275+VAT with code DM3**

BVA & BEVA members
receive further discounts!
