

YuDash ZEVA

Multi-Parameter Water Quality Controller

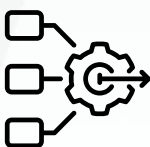

Analog • pH • RTD • Conductivity • Modbus • Ethernet

Sense

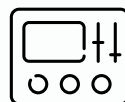

- 4–20 mA Analog Inputs
- Direct pH interface
- PT100 / PT1000
- Conductivity input
- Modbus sensors

Connect

- Analog Retransmission Outputs
- Modbus RS485
- Ethernet LAN
- PLC / SCADA Integration
- Optional IoT Connectivity

Monitor

- 4.3" Color TFT Display
- Monochrome LCD Option
- Keypad Configuration
- Wi-Fi / Bluetooth Configuration
- Local Calibration & Settings

Field-Ready

- Rugged IP-Rated Enclosure
- Double-Door Construction
- Separate Display & Wiring Access
- Cable-Gland Field Entry
- 12 / 24 V DC Supply
- Low-Power Operation

One Controller. Many Water Applications.

Industrial Process

ETP / STP

Process Water

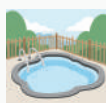

Water Infrastructure

Drinking Water

Aquaculture

Swimming Pools

Industrial Boilers
