Mybility All Terrain Wheelchairs – Ethical and Friendly

Mybility FourX All Terrain Wheelchairs – Ethical and Friendly

Mybility Ltd was founded by Chris Christou, who experienced firsthand how a Four X DL wheelchair can radically change a life. Chris is passionate about bringing this incredible range of wheelchairs to others, in the hope of enhancing their life also.

The Mybility Four X DL All Terrain Wheelchair range can comfortably handle, grass, mud, steep slopes, cobbles, steps, sand, snow as well as indoor environments. From sitting, laying down to standing, the range can be adapted by Mybility to meet your needs.

Unique to Mybility, the DL range can be modified to suit children from age 6 years with a in-house designed seating system, which can be altered by our technical staff as the child grows.

Mybility offers unbeatable value, with a generous range of extra accessories included in the price as well as a 5 year parts and labour warranty and 10 year frame warranty. Mybility can organise a comprehensive demo at your home for as long as it takes, with a in-depth seating assessment included.

DL wheelchairs are road and pavement legal with a long range of up to 25 miles.
