

TRAMAK

MAKING CONVEYING

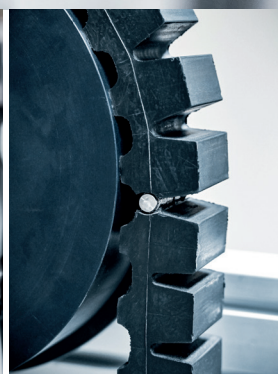

RUBBER-BLOCKCHAIN (TRBC)

OUR FEATURES:

TRAMAK original Rubber-Blockchain is an important component in Continuous Vertical Conveyor, Reciprocating Lifts or bucket transport systems for bulk material.

TRAMAK Rubber-Blockchain operates grease free, and therewith clean compared to steel chains.

TRBC made of modified natural rubber operate very quiet and avoid the necessity to wear ear protection when working nearby.

TRBC are very strong, with steel cables inside and a reliable binding between rubber and steel cables.

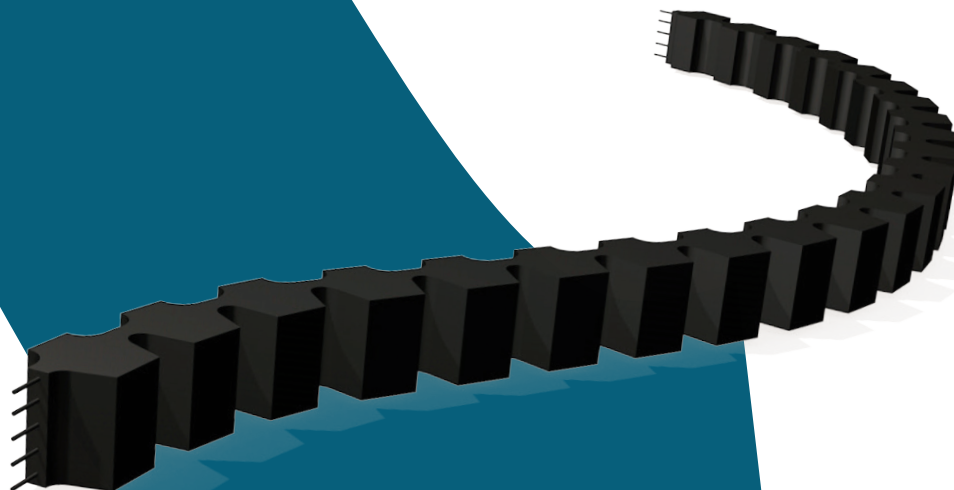

TRBC come with a lock for easy installation, or endless vulcanized for better resistance against weather and aggressive pollution influence.

TRAMAK uses TRBC in own machines for reliable and quiet operation, and also offers the chains as spare parts and replacement in other machines operating with a similar system. Dimensions and technical data are identical.
