

It's time for better plans

Plantastic!

Workforce Planning for Ground Handling

WePlan turns planning chaos into clarity so you stay in control, cut costs, and move faster.

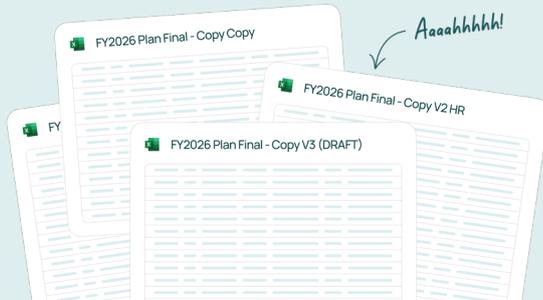

The old way of Workforce Planning is *broken.*

Traditional Planning

Outdated tools lead to inefficiency, blind decisions and chaos

- ✗ Teams work in chaos with outdated data & silos
- ✗ Changes get lost without version history
- ✗ Slow coordination between HR, ops & finance
- ✗ Manual updates waste time & delay decisions
- ✗ No early warnings for future demand or risk

Planning with WePlan

One platform with full control for smarter decisions and efficiency

- ✓ Scenarios, forecasting & analytics in one place
- ✓ Real-time, synced planning across departments
- ✓ Change log & full versioning for transparency
- ✓ Always adaptable due to fully flexible configuration
- ✓ Early insights into risks, gaps & bottlenecks

Pairing System HR Database Holiday System Rostering System And More

The WePlan solution

Built for complexity. Designed for clarity.

WePlan replaces scattered files with one central planning platform that speaks your operation's language: stations, roles, skills/licenses, equipment, contracts, training and shift patterns – you name it. Every change is tracked, every assumption is transparent.

Scenarios can be created in seconds and outcomes compared side by side. When operations shift, your plan updates with it. Post-ops results feed back into planning, so forecasts get sharper every cycle.

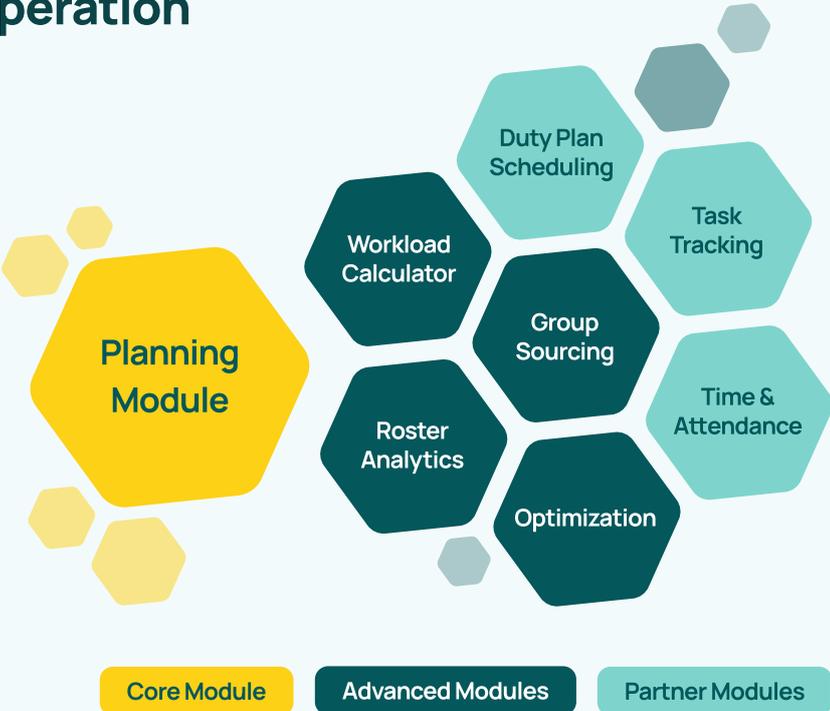

No more chaos. Just a living plan that stays in sync with duty scheduling and operations.

One platform that fits your operation

Modules for Ground Handling

Our optional Advanced and Partner Modules allow you to customize WePlan to your team's needs and pay only for what you use.

Discover the details

Explore the flexibility of our core and advanced modules and see how they can transform your Workforce Planning.

Win-Win!

Where teams see impact first

Reduced Costs

Calculate requirements precisely and use existing personnel better – especially around shift mix, cross-utilization and non-productive time – so costs drop. WePlan users see **5-7% savings** after implementation.

Efficient Planning

Automate data flow, remove manual tasks and standardize how plans are built, so decisions happen faster with ready-to-use scenarios and automatic inbound data distribution for **40% increased planning efficiency**.

Planner Happiness

Our **intuitive UI** with smart helpers prevents errors, explains every change via delta reporting and traceability, and takes over repetitive tasks, so planners can spend their time actually planning.

Higher Security

Replace manual, Excel-based planning with an **audit-proof**, integrated flow, add integrity checks and versioned data, and control access by role, so governance stays simple.

We've got your back

with **WePlan Care** ☆⁺☆⁺

WePlan Care is our promise to you – a 100% covered customer experience from day one to rollout and beyond. Real support, proactive, connected, and constantly evolving.

For WePlan Users

Bi-Weekly Releases

You automatically benefit from every new feature we launch – at no extra cost. Innovation is part of the package, not an add-on.

For WePlan Users

Continuous Expert Support

No chatbots. No tiered support models. Our expert support team is just a call away – before, during, and after go-live.

For WePlan Users

Yearly User Events

We bring planning teams together. Our annual user conference creates a space to learn, share best practices and vote on our product roadmap.

For WePlan Users

Complimentary User Forum

Stay connected with other users and our product team. The Forum is your place to exchange knowledge on how to get even more out of WePlan.

Your runway to better plans

From first hello to go-live, we make onboarding simple, transparent, and fast. Book your demo today and start seeing planning efficiency gains in just a few months.
