MR MONITOREAL

Spartan Series

Optimized with Intel chipsets to deliver peak performance and maximize channel capacity with onboard Edge AI analytics

person 81%

Spartan I

Our flagship video security device, designed to deliver latency-free AI object detection, complete cloud independence, and absolute data sovereignty, ensuring instant alerts to any CCTV surveillance network.

- **Up to 20 cameras**
- **Up to 48MP RTSP**
- **Up to 96MP HTTP/JPEG**

person 94%

Spartan II

Introducing enterprise-grade capabilities to meet the requirements of more complex surveillance systems. By optimizing processing power with on-board analytics, Spartan II delivers security at its core, with enhanced hardware specifications.

- **Up to 60 cameras**
- **Up to 120MP RTSP**
- **Up to 240MP HTTP/JPEG**

Titan

Offering the same specifications as Spartan I, this device is engineered to withstand the toughest outdoor conditions and harshest environments. Its reinforced metal casing ensures dependable performance, structural integrity and reliable functionality.

- **Operates from -20°C to 50°C/-5°F to 124°F**
- **Damage-resistant & wall-mountable**
- **Up to 20 cameras, 48MP & 96MP capacities**

MR MONITOREAL

Spartan Series

Our proprietary Edge AI is at the heart of every device, guaranteeing no compromises for better performance

Accurate AI Object Detection

Highly accurate Edge AI analytics appliance that ignores irrelevant events.

Customizable rules generate instant alerts on 24+ objects (people, vehicles, and more).

Pair with AI-powered accessories to control connected devices.

Edge AI: Privacy and Security

An on-premise based solution built with complete privacy in mind.

All video is processed locally, behind your firewall.

No external company, person or cloud server has direct access to users' data.

Customizable Alerts and Mobile Access

Use the Monitoreal App to access your surveillance hub, monitor cameras, and receive instant alerts directly to your mobile.

Additionally, each hub also comes with a range of integration options to connect directly with your chosen Alarm Receiving Center (ARC).

No Contracts or Recurring Fees

No annual contracts. No extra fees for new features. Just a one-time purchase.

Competitively priced compared to the three-year total cost of ownership of lower-performing cloud-based devices.

Personalize Zones, Rules and Detection Criteria

Each camera can be customized with unlimited zones, including both inclusion and exclusion options.

You can define your own sensitivity settings, timings, objects and more, to ensure you only detect what you want to see.

Flexibility of Camera Choice

Existing system? Connect any security camera via ONVIF or RTSP, with simple plug-and-play setup and network integration

New system? Use our cameras for easy set-up, or choose your own with peace of mind knowing our hubs will integrate seamlessly with your setup
