

**Aviation &  
Aerospace Services**

## Aviation Planning & Advisory

We provide strategic guidance to help airports and aviation stakeholders navigate complex challenges. Our advisory services include masterplanning, capacity analysis, sustainability strategies, and operational optimisation to ensure future-ready infrastructure.

## Aviation Hubs

Our team has delivered some of the world's most iconic aviation hubs, including **Changi Terminal 5**, and are delivering generational change to **Jeddah Airport**, as JEDCO's trusted partner. We specialise in creating integrated, passenger-centric environments that balance efficiency, sustainability, and innovation.

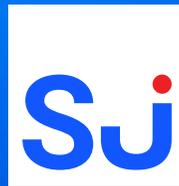

### Changi Terminal 5 and Jewel Changi Singapore

Lead partner for the engineering consortium for Changi Terminal 5's extensive airside and landside infrastructure design, while member company Atelier Ten provided advanced environmental and analytical design expertise for Changi's Jewel garden, to optimise daylight, comfort and energy performance across the development.

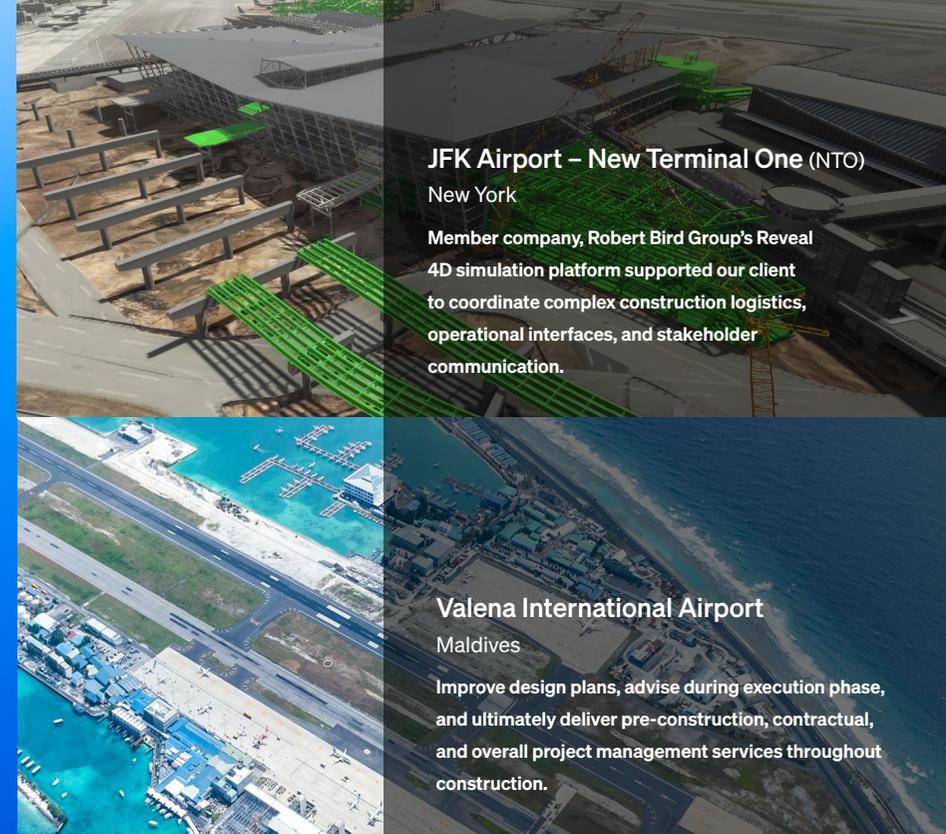

### King Abdulaziz International Airport (KAIA) Jeddah

Project management consultancy services for the airport facilities development plan. We are currently managing more than 100 projects within KAIA spread across multiple sectors for both landside and airside facilities.

At SJ Group, our Aviation & Aerospace team partners with clients to deliver transformative projects that redefine passenger experience and operational efficiency. From strategic planning to cutting-edge design, we bring global insights and local expertise to every challenge.

Explore  
our impact.

### JFK Airport – New Terminal One (NTO) New York

Member company, Robert Bird Group's Reveal 4D simulation platform supported our client to coordinate complex construction logistics, operational interfaces, and stakeholder communication.

### Valena International Airport Maldives

Improve design plans, advise during execution phase, and ultimately deliver pre-construction, contractual, and overall project management services throughout construction.

## Meet our Global Aviation & Aerospace Leadership Team

Our team combines decades of experience with a passion for innovation to deliver solutions across the entire aviation lifecycle – from advisory and planning to design and delivery.

# Deliver with experience, on the ground, around the globe

- Feasibility studies
- Masterplanning
- Project development
- Design and coordination
- Pre-construction solutions and modelling
- Project and construction management
- Operational readiness and airport transfer

**Real impact,  
made together.**
