PRESTOP – ENGINEERING THE FUTURE OF SELF-SERVICE

Prestop is not just a manufacturer of self-service kiosks and interactive touch solutions – we are your strategic innovation partner. Where others offer limited customization based on standard products, Prestop delivers **true bespoke self-service solutions**, engineered from the ground up around your needs, brand, users and environment.

Why leading organisations choose Prestop:

- **True custom engineering** – in-house design & development of standard and fully custom-built solutions.
- **Made in the Netherlands** – premium European quality, reliability and compliance.
- **Certified excellence** – CE & FCC certified, fully EAA compliant.
- **Total hardware integration** – seamless integration of ID readers, scanners, payment systems, cameras, hearing loops and more.
- **Premium materials** – steel, Hi-Macs, stainless steel and glass for a high-end, durable and future-proof finish.
- **In-house cleanroom production** – precision touchscreen manufacturing under controlled conditions.
- **The largest Interactive Experience Centre in Europe** – experience, compare and validate solutions in real-life environments.

From airports and hospitals to governments, smart cities and enterprise environments – Prestop solutions are built to perform, scale and impress.

Experience the difference

Visit our Interactive Experience Centre or schedule a personal consultation to discover how Prestop transforms self-service into a strategic advantage for your organisation.

Alexander Aelberts
CEO, Prestop BV

CLEANROOM

Prestop designs and manufactures **self-service solutions in The Netherlands** with unmatched quality and precision.

We are fully **EAA-compliant**, ensuring accessibility for all users.

Our features include:

- Height-adjustable systems
- Hearing loops & AudioNav
- Braille interfaces
- Bonded glass touchscreens
- Integrated video chat

Prestop combines **premium materials** — steel, Hi-Macs, stainless steel, and glass — for a **durable, high-end look & feel**.

Our team uses **AI, machine learning and next-generation design tools** to create tailor-made solutions.

Touchscreens, optionally with **privacy filters**, are manufactured in our **state-of-the-art cleanroom**, ensuring precision and quality in every product.

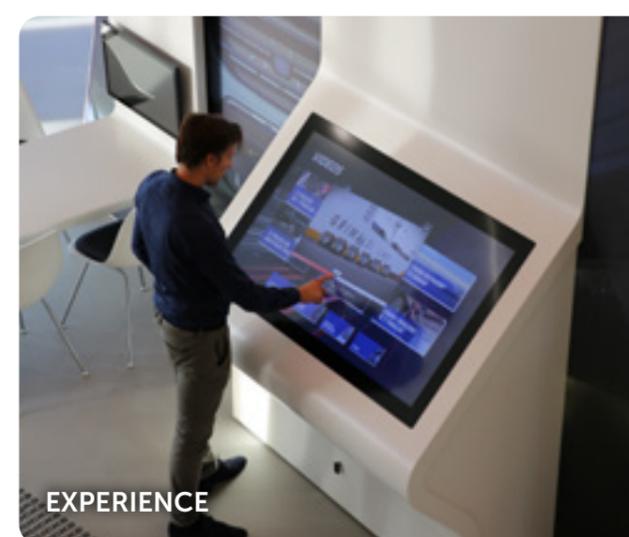

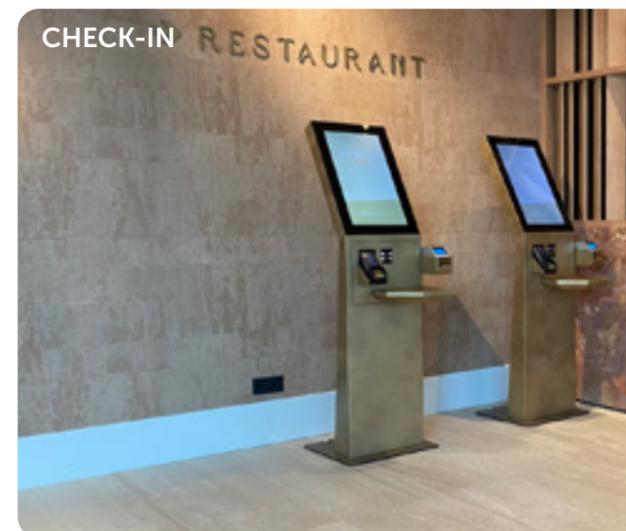

CUSTOM PROJECTS

SPECIALS - TAILORED FOR YOUR NEEDS

Prestop partners with ISVs to deliver custom self-service solutions for any application and environment.

Designed and manufactured in-house, our kiosks are built to your specifications and ready to perform anywhere.

RENT INTERACTIVE SOLUTIONS

Do you need interactive solutions for your upcoming trade fair or event? Our cutting-edge equipment and applications offer a wide variety of touchscreen options to choose from, including information kiosks and smart touchtables. We make it easy for you to add and present your unique content easily. As the leader in our industry, we are committed to helping you create a memorable and impressive experience for your guests.

PRODUCTS FOR RENT

The following products can be rented from Prestop for your exhibition stand or for temporary use during a promotion or event.

These kiosks and tables can also be equipped with our offline Omnitapps software. This allows you to create a touch-friendly presentation or, for example, an interactive quiz for your stand.
