SINGAPORE VET SHOW 14-15 October 2022

WELCOME MESSAGE

WELCOME

On behalf of our exhibitors, sponsors, speakers, and the entire Singapore Vet team I'd like to welcome you to the 2022 edition.

We are delighted to be holding Singapore Vet this year especially due to the last two years creating a pause on events.

This year, you can expect to see 80+ exhibitors showcasing leading veterinary products and solutions from across the globe. Along with attending the world class conference programme presenting speakers lead by the Royal Veterinary College of London and two Singapore Vet sponsor led theatres. A special thank you to Prof Jill Maddison who has once again delivered a compelling companion animal programme that will give you plenty to think about and take back to your own clinic. Singapore Vet is your unmatched opportunity to engage with and learn from leading thinkers and visionaries in veterinary care. Singapore Vet will offer you 17 hours of CPD accreditation certification.

Also a big thank you to Singapore Vet Association and their committee of dedicated veterinary professionals who have helped to promote Singapore Vet to their community and guide the Singapore Vet team providing insight and direction. Also, to our country association partners for their support and effort to help build a strong Vet community around Singapore Vet.

New for 2022, we have partnered with VetTrust Consulting to create your very own Vet Experience Zone. This feature area located within the exhibition hall will provide you the opportunity to experience leading veterinary products as if they would be displayed in a real-life clinic environment.

You are in for a great event; over the two days you will get insights and inspiration to transform your practice.

Thank you for attending Singapore Vet, we hope you have a great experience, and we look forward to welcoming you next year on the 13 & 14 October 2023

Courtney Macdonald
Event Manager

closerstillmedia.com for
more information

Welcome to the Information Hub

Here you can find answers to many of the frequent questions we receive. If you require any further assistance, please read our Delegate Services section.

SPEAKERS AND VIP SERVICES

Please ensure your event badge is worn throughout the two-day event for entry/exit/re-entry purpose and have your name correctly printed for correct CPD information.

A new event badge can be issued free-of-charge in the event of damages. However, for any name-transfer onsite will incur additional charges.

CPD CERTIFICATES

CPD certificates can be collected at the CPD collection point, located at the **Delegate/VIP Services** at front entrance (Suntec, Level 4). You will also receive a digital certificate via email, two weeks after the show.

Furthermore, if you require further CPD validation, you can also purchase webinars from our Delegate/VIP Services where the delegate team will assist you.

LUNCH AND REFRESHMENTS

Complimentary lunch is provided to all **Delegate, VIP and Speaker** badge-holders throughout the two days. Lunch will be available from 12pm – 2pm in the **Delegate Catering Area**. Please ensure you bring along your event badge for meal collection.

Complimentary tea and coffee are available at the **Delegate Catering Area** for all attendee and at the **Speaker/VIP Lounge** for speakers and VIP badge-holders.

WI-FI

Suntec provide **complimentary Wi-Fi**, which is suitable for browsing, social media and emails. This can be accessed through standard login (follow instructions that pop up).

SPEAKERS AND VIP SERVICES

Speakers and VIPs can have access to our **Speaker/VIP Lounge** located between **Business Theatre** and **RVC Clinical Theatre 1**.

VIP

PRAYER ROOM

You can access a small area dedicated to small gender-segregated prayer rooms for the Centre's visitors located at **Level 3, near Nicoll Room 1**, beside the escalator leading to Suntec City Mall.

DELEGATE SERVICES

Delegate/VIP Services counter is located right outside of Singapore Vet Show entrance at Level 4 is the best place to go if you have any troubles or queries on the day.

Welcome from the Royal Veterinary College

I am beyond excited to be returning to Singapore for the 2nd Singapore Vet show.

It will be such an amazing event where delegates will have an opportunity to hear world-class speakers, visit and engage with a great range of commercial exhibitors and mingle and catch up with colleagues from around the region. The aim of the RVC programme is to provide practical, relevant and inspiring continuing education for veterinarians in practice to help them enhance the quality of their work in supporting the needs of their patients and clients.

The programme will feature speakers from around the world – Australia, the US, the UK, Hong Kong and Singapore – covering a wide range of topics including emergency and critical care, neurology, soft tissue surgery, ophthalmology, rabbit medicine and gastroenterology. In addition, there will be a wide range of topics covered in the business and Innovations theatres. There should be something of interest to every participant!

We hope you enjoy the show!

Prof. Jill Maddison
Professor of General Practice
Royal Veterinary College

Welcome from Singapore Vet Association

On behalf of the Singapore Veterinary Association's Executive Committee, I am excited to welcome you all to Singapore Vet 2022. Personally, I am looking forward to this meaningful event and platform for networking and learning after a two-year hiatus due to the COVID-19 pandemic.

The Vet Show global franchise has always lined up an exciting series of high-quality talks given by the top veterinary professionals around the world; the Singapore Vet 2022 is no exception. As the veterinary community and pet industry grows and evolves globally and, in the region, such platforms for professional exchange and learning is more important than ever.

The range of topics covered in this year's programme and exhibition area is broad and impressive, catering to a wide range of interest and professional development areas. I am sure you will find this event fruitful.

This year, we also included "**nurse/technician-suitable**" lectures to create a more inclusive program. This allows us to cater to our support staff who are an integral part of our profession.

Do visit the Singapore Veterinary Association booth at J13 to speak to our team to learn more about the ongoing and future initiatives for the veterinary community here, such as the development of the veterinary nursing and technician profession, safeguarding mental wellness of veterinary professionals and the evolving technology in the pet and veterinary landscape. The SVA would love to hear from you, learn how to better serve the local community and explore collaboration with our overseas counterparts.

I look forward to meeting all of you at this year's Singapore Vet!

Our company was formed in 2013 to source and supply to veterinary professionals quality and innovative nutraceuticals that have proven clinical benefits.

Volition Veterinary / D10
T: +1979-709-2348
AskNu.QVet@volition.com
veterinary.volition.com

The Nu.Q® Vet Cancer Test was developed with the goal of providing an accessible and affordable screening test to aid in early detection. We believe that cancer screening should be woven into wellness exams, becoming as routine as heartworm or fecal tests. Together, we can give your pet the best chance at successful treatment.

Worldwide Veterinary Services (WVS) / E34
T: 44 (0)1725 557225
https://wvs.org.uk/

Worldwide Veterinary Service provides free expert care to animals in need all over the world. We do this by sending vets where they are needed most, training them to increase the standard of care globally and by shipping urgent aid supplies worldwide, every week of the year.

Ya Hai International / D20

T: 86 886-5-235-8800

Zoetis / E30
T: 1973.822.7000
privacy@zoetis.com
https://www.zoetis.com/

Zoetis is the world's leading animal health company. Our name comes from "Zoe," the Greek word for life. The use of science to sustain life is at the foundation of everything we do. How can science create longer more fulfilling lives for pets? Better life-saving treatments for veterinarians to use? More sustainable livelihoods for ranchers and livestock farmers, with safer food for the people they serve?

Zumvet / F11
T: 65 6631 8386
hello@zumvet.com
https://zumvet.com/

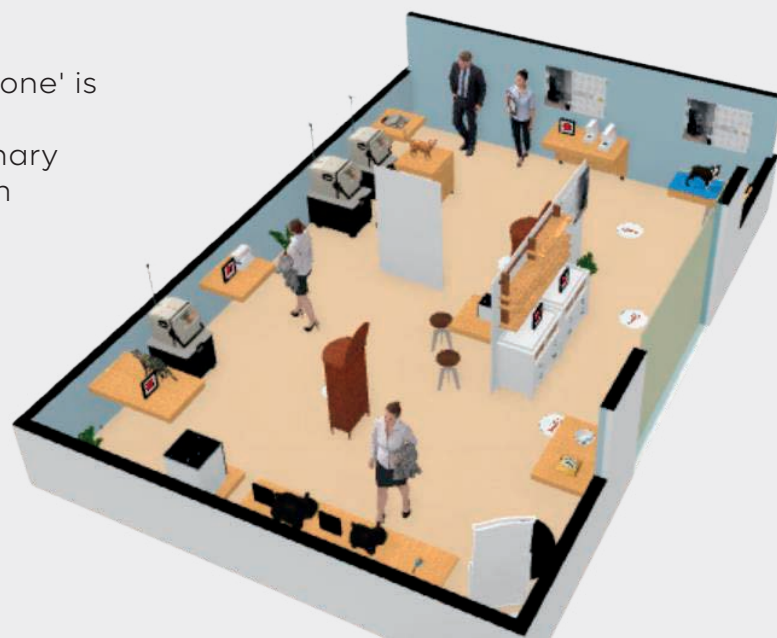

ZumVet is a Singapore-based platform for pet owners, offering best-in-class products and services to ensure the health and happiness of pets.

THE VET EXPERIENCE ZONE

Level-up your Singapore Vet experience this year

Our first-ever 'Vet Experience Zone - VE Zone' is designed to simulate a real-life vet clinic environment, featuring an array of veterinary technologies, solutions, and products from leading manufacturers around the globe.

This showcase will allow you to immerse yourself and be a part of the learning experience into view, touch, and learn about the latest leading and innovative veterinary solutions on the market so you can experience medical excellence at its best!

WIN THE TRIP OF A LIFETIME!

Stand a chance to win a two-week adventure trip for you and a friend through WVS to Blantyre, Malawi just by participating in Singapore Vet Show Passport Competition 2022!

Be Part of the Global Animal-Rescue Mission

You will mainly be working at the well-equipped BSPCA clinic near the centre of Blantyre, however outreach clinics to rural areas may also be scheduled, giving you the chance to see the stunning countryside and meet the community.

You will also get the opportunity to visit the stunning Majete Wildlife Reserve where WVS provides veterinary care to wildlife and anti-poaching dogs.

You will get the opportunity to have the experience of a lifetime in Malawi, whilst using your veterinary skills to make a real difference.

MAKE EVERY MOUTHFUL COUNT

Gastrointestinal tract disorders are unique to each cat and dog. An impaired digestive function may affect how they utilise the nutrients in their food and prevent them from reaping the full benefits of the diet.

Combine your expert knowledge with ROYAL CANIN® GASTROINTESTINAL TRACT diets. A range of tailored nutritional solutions, for both short-term recovery and long-term management, to support cats and dogs with digestive disorders, including liver conditions, and during critical care.
