Overlay Graphics

Our overlay graphics are the best option if you are searching for a premium look to enhance your stand.

Overlay graphics are the most popular choice for exhibitors, allowing you to have continuous imagery and text across your panels with a small hairline join where each panel meets.

• Please note:

Full Vision will remove all graphics after the event unless requested otherwise by the purchaser.

£230.00
per panel

Inlay Graphics

Inlay graphics are a great cost-effective option if you are looking for a professional feel to your stand, but may not have the budget to brand the whole stand.

With Inlay graphics you can choose to brand specific individual panels, that are positioned in strategic places for the most effective branding or brand the entirety of your stand.

! Please note:

Full Vision will remove all graphics after the event unless requested otherwise by the purchaser.

£267.75
per panel

Rollable Inlays

Our reusable rollable inlay graphics are a great sustainable option, as they can be reused.

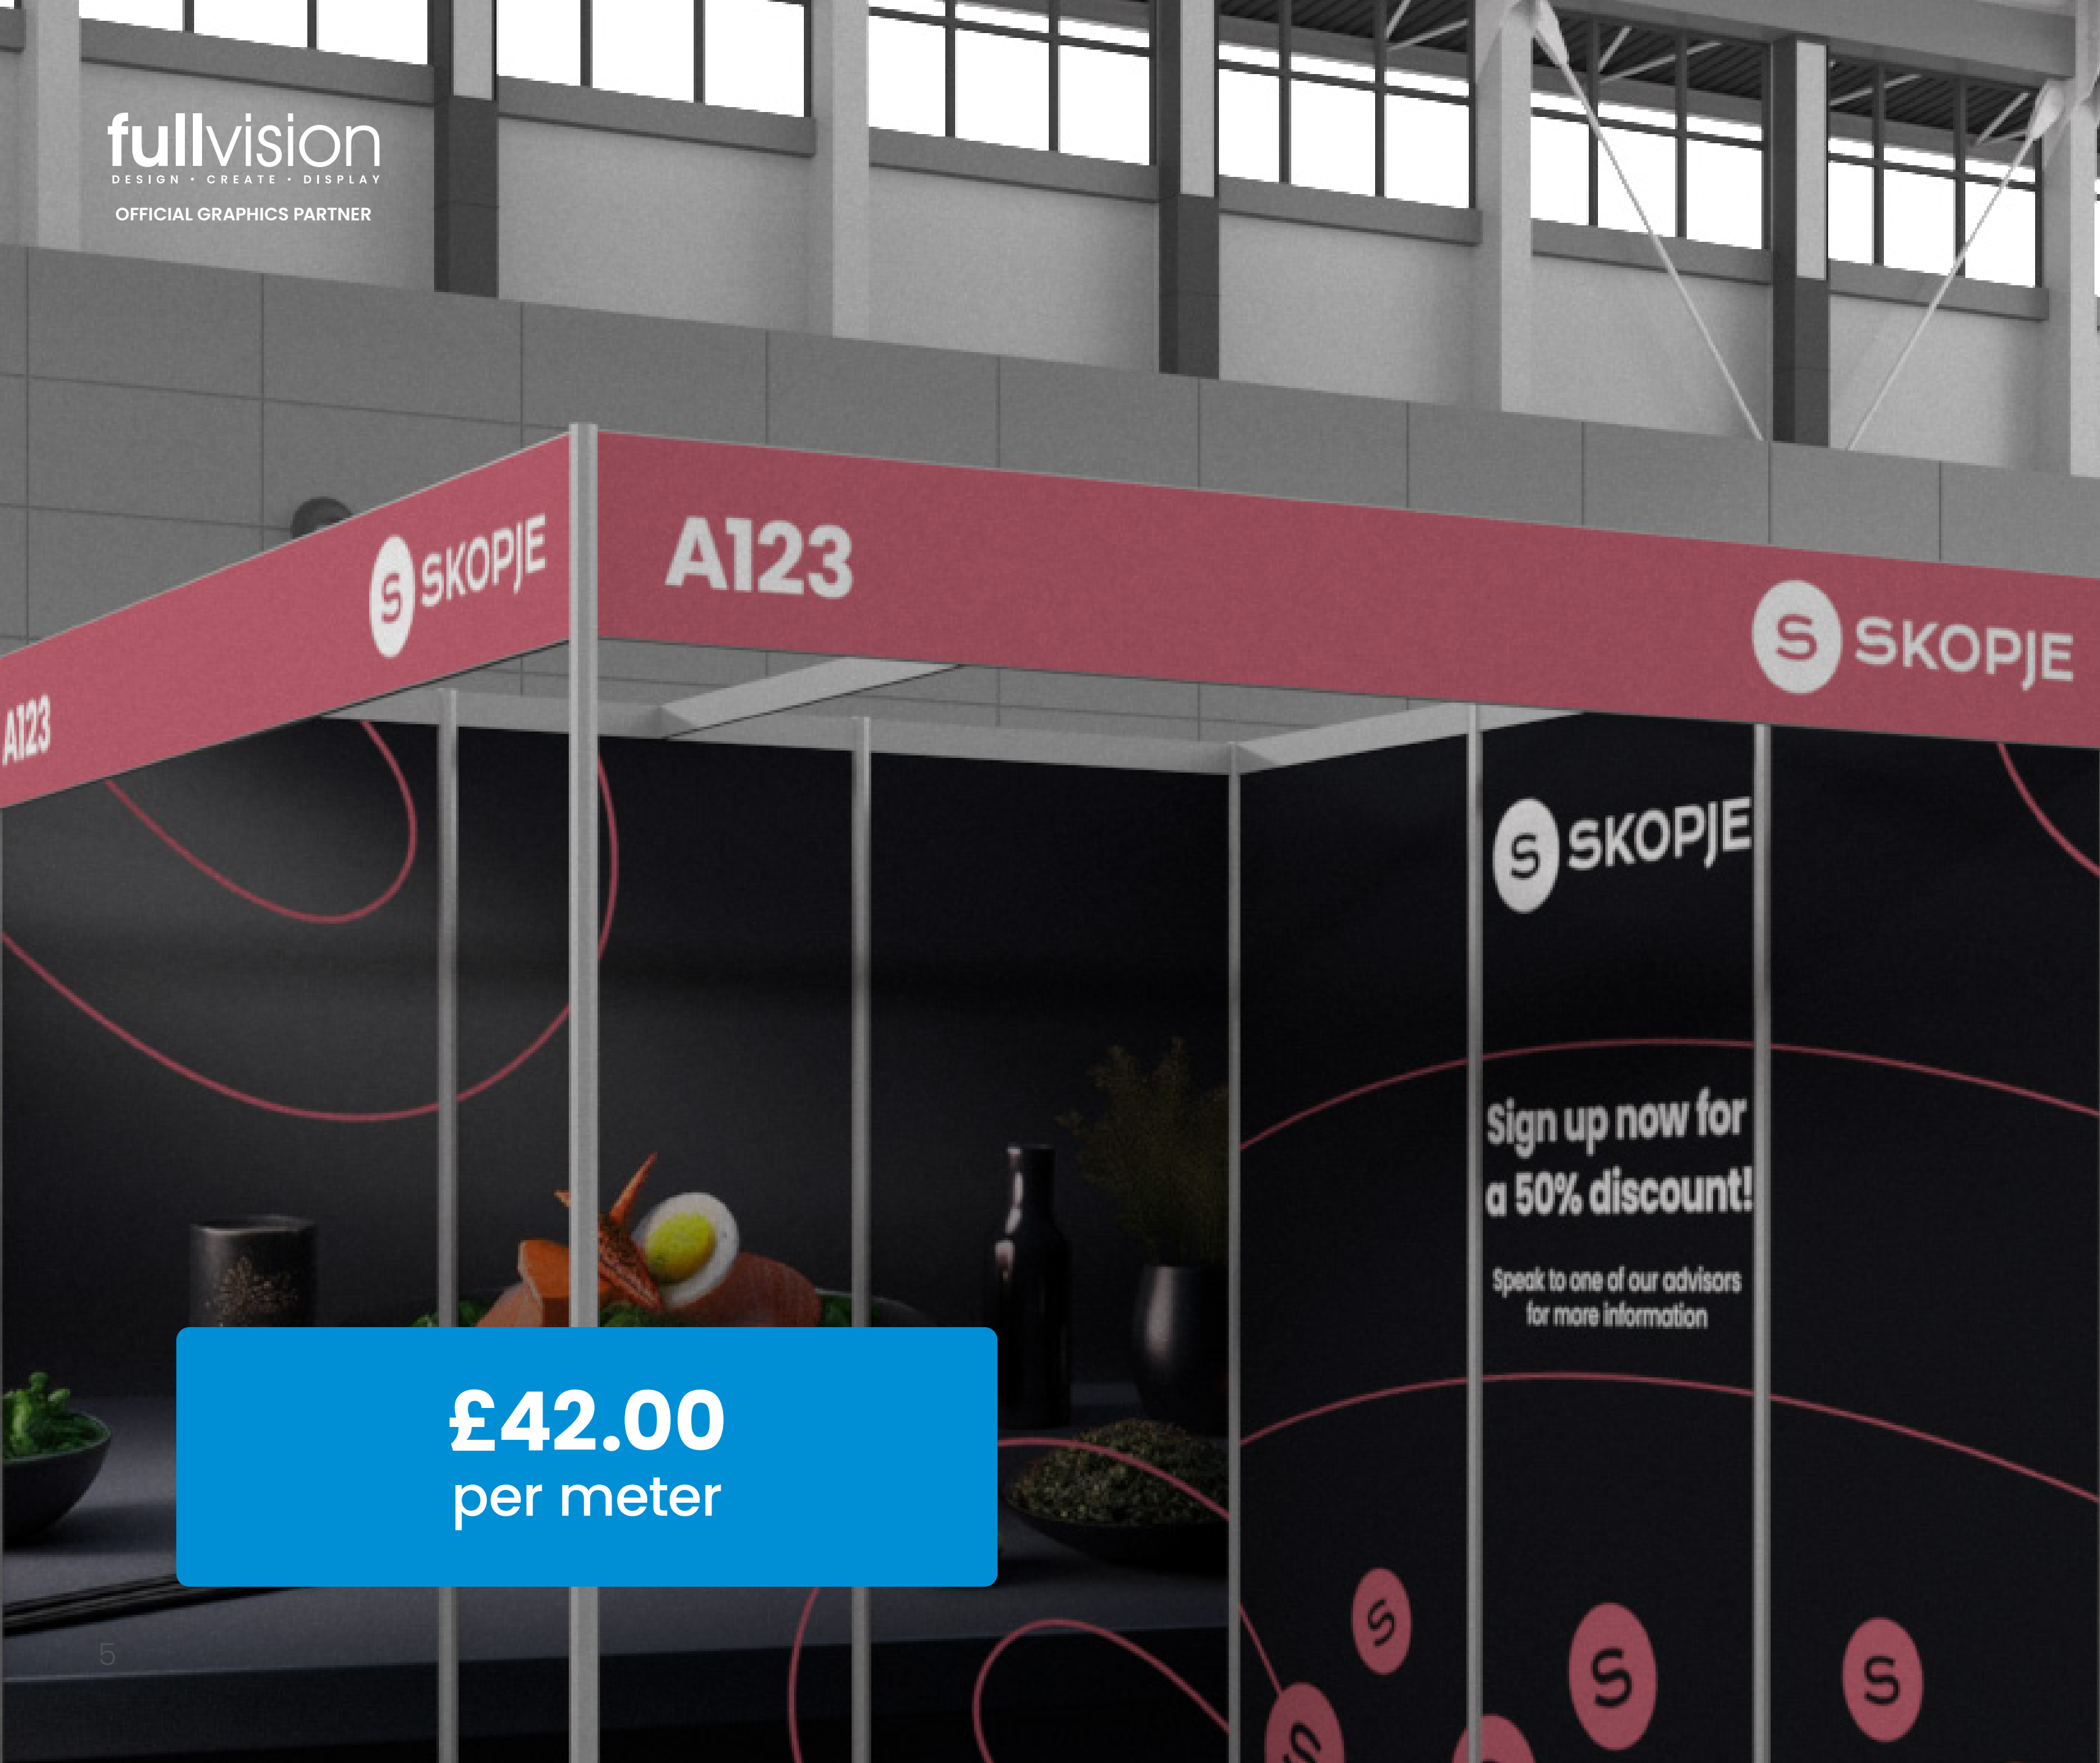

The graphics sit within the frame and are attached by magnetic strips at the top and bottom of the 1 metre panel.

At the end of the show, you will be able to take the graphics down, roll them up and transport them back with you.

ⓘ Please note:

Full Vision will remove all graphics after the event unless requested otherwise by the purchaser.

Due to the nature of the rollable inlays, they may not sit flush to the panel.

per meter

Fascia Overlay

The fascia/header overlay boards run around the top of the frame of your shell scheme, on all your open sides.

Fascia boards display your company name and the number of your stand, for attendees to identify and locate your booth.

Example of the fascia requirements:

3m x 3m stand (with two open sides) will require 2 x 3m fascia boards along the top of the two open sides.

! Please note:

Full Vision will remove all graphics after the event unless requested otherwise by the purchaser.

You will require approval from the organiser prior to ordering this product.
