CONFERENCE SCHEDULER > DAY 1 < 21 OCTOBER 2025

DAY 1	HYDROGEN LEADERSHIP SUMMIT LOCATED: UPPER B4	GREEN HYDROGEN PRODUCTION & ELECTROLYSER DEVELOPMENT LOCATED: UPPER B3	CCS POLICY, REGULATION AND CAPTURE TECHNOLOGIES LOCATED: HALL B6
	SPONSORED BY: John Crane	SPONSORED BY: (SB	SPONSORED BY: TONEXUS
09:00	Welcoming Remarks - Hydrogen Policy and Regulations	Welcoming Remarks - Green Hydrogen Production	Welcoming Remarks - CCUS Leadership and Regulation
09:10	Opening Remarks Leadership Keynote Accelerating European Hydrogen	Hydrogen production via biomass thermolysis	Necessary Evil or Business Opportunity? How Carbon Management Is Fuelling Decarbonisation and Growth.
09:15			
09:30			
09:35	Panel Discussion: Germany's New Leadership and the Future Hydrogen Economy	HySynergy - one of Europe's largest facility for large scale production of green hydrogen	The world's energy market opportunities, and how Carbon Capture in Europe fits
09:45			Panel Discussion: Germany's New Leadership and the Future of CCUS
10:00			
10:25			
10:30	Germany's Hydrogen Economy	System Optimisation and Techno-economic analysis of renewable hydrogen production plants	
10:40	NETWORKING PREAK		
10:45	NETWORKING BREAK		NETWORKING BREAK
11:00		NETWORKING BREAK	NETWORKING DIEAR
11:15	D	HEI WORKING BREAK	From North Sea Legacy to Net Zero Leadership:
11:20	Panel Discussion: Unlocking Growth: Innovation in the Global Hydrogen Landscape	Optimising Green Hydrogen Production: Balancing	Scotland's Lessons Learned from the CCUS Opportunity
11:40		Optimising Green Hydrogen Production: Balancing CAPEX, OPEX, and Power Quality with Water-Cooled Thyristor Rectifiers	Market Status of CO. Canture Technologies: Trends
11:45			Market Status of CO ₂ Capture Technologies: Trends and Future Outlook Insurance Insights: Addressing Risk and Resilience
12:05	National Hydrogen Pipeline Project Update	Panel Discussion: Green Hydrogen at Industrial Scale: Lessons from Frontline Projects	
12:10			in CCS Projects
12:30	Panel Discussion: How Tariffs Shape Global Renewable Energy Markets	To RFNBO or not to RFNBO - is this really the question?	De-risking CCS: How real projects are becoming investable and bankable
12:55		Advancing Green Hydrogen Production	Roaring Engines, Fizzing Cans: An Unexpected Partnership in the Energy Transition
13:20	NETWORKING LUNCH	Closing Remarks	Closing Remarks
13:25			
13:55	Welcoming Remarks - Hydrogen Funding and Global Markets	NETWORKING LUNCH	NETWORKING LUNCH
14:00			
14:25	Panel Discussion: Building the Ideal Hydrogen Ecosystem: Why Collaboration Across Regions, Sectors, and Borders Is Key	Welcoming Remarks - Electrolyser Production and Development	Welcoming Remarks - Carbon Capture Technologies and Policies
14:30			Shaping a Net-Zero Industrial Future — Activating
14:45			Global Industrial Decarbonisation with CCUS Technology
14:55	Panel Discussion: Global & European Hydrogen Financing	How partnering with a global market leader can leverage your process or product	Providing an agnostic and holistic evaluation program for Carbon Capture Utilisation and Storage (CCUS) technologies
15:20		Ontimication Of Cross Under an Electrolists Plant	
15:30	NETWORKING BREAK	Optimisation Of Green Hydrogen Electrolyser Plant Efficiency And Required Power Quality Solution	Panel Discussion: Carbon Capture - Technical, Economic and Regulatory Challenges
15:40 15:45			
15:45	Panel Discussion: Hydrogen Markets and Cross- Border Trade	Efficiency on water purification system for renewable hydrogen production	
16:10			Impact of advanced waste heat recovery on Carbon capture economics in industrial
16:25		Partnership between industry and research for accelerating the development of high temperature electrolysers in Poland	applications
16:30	A supply chain's market view and the need for collaboration	electrolysers in Poland	
16:35			How Combining Technological and Chemical
16:40	Hydrogen Ecosystem - Huge promises, little realization and way forward	Panel Discussion: Electrolyser Production and Supply Chain Challenges	Know-How enables Optimal Design and Operation of Carbon-Capture Units
16:50			
16:55	Closing Remarks	Success factors in the EPC business: experiences and lessons learned in hydrogen projects	Disruptive CO ₂ capture technology surpassing state-of-the-art capture cost
17:20		Closing Remarks	Closing Remarks

CONFERENCE SCHEDULER > DAY 2 < 22 OCTOBER 2025

DAY 2	FUEL CELL INNOVATION, PERFORMANCE AND MOBILITY LOCATED: UPPER B4	LOW CARBON HYDROGEN PRODUCTION LOCATED: UPPER B3 SPONSORED BY: SIEMENS COCCOY	CARBON CAPTURE, STORAGE & TRANSPORT LOCATED: HALL B6 SPONSORED BY: TONEXUS
09:00	Welcoming Remarks - Fuel Cell Production and Research	Welcoming Remarks - Hydrogen Production Technologies	Welcoming Remarks - Carbon Capture Solutions
09:05 09:10	Innovative PEM Fuel Cell Integration: Bridging	Production Costs and Potential Colour Distribution of	Investigation of DAC materials under industry-
09:35	Technology and Real-World Applications Hydrogen-to-Power Plants: Bridging the Gap to Net	Future European Hydrogen Supply The Synergy of Blue and Green Hydrogen Technologies in Driving Clean Energy Transition	relevant conditions and improvement possibilities
10:00	Zero by 2050	Technologies in Driving Clean Energy Transition	Panel Discussion: Scaling DAC - Challenges and Opportunities in Europe
10:20	Fuel Cell Production Research	NETWORKING BREAK	
10:30		The key questions of natural (white) hydrogen:	NETWORKING BREAK
10:45	NETWORKING BREAK	"Where? Why? Who? How? And how much?"	
10:55			Advancing Large-Scale Carbon Capture in Cement Production
11:10	The Evolving Stationary Fuel Cell Market is Set for	From Ground to Grid: Unleashing the Power of White Hydrogen	
11:15 11:25	Significant Growth		Electrically Driven CO2 Capture for Cement Industry - Maximising Efficiency, Minimising
11:35		Panel Discussion: Natural hydrogen – can the reality	Emissions
11:40		deliver the potential?	Recent advancement in Post Combustion CO2 Capture Technology
12:05	Panel Discussion: Reducing the Production Costs of your Electrolysers and Fuel Cells		
12:10 12:15		Closing Remarks	Three lessons learned from three years of operating
12:20	Closing Remarks		three demonstration units
12:25			
12:30		NETWORKING LUNCH	Energy self-sufficient CO2 capture for blue hydrogen production
12:55 13:00	NETWORKING LUNCH		Closing Remarks
13:15	NET WORKING LONGIT	Welcoming Remarks - Scaling Low-Carbon Hydrogen	
13:20			
13:25	Welcoming Remarks - Fuel Cells for Mobility Applications	Business models for low-carbon hydrogen – unlocking market potential and economic viability	NETWORKING LUNCH
13:30	Navigating EU & US Hydrogen Regulations: Ensuring Compliance for On-Road and Off-Road		
13:45 13:55	Applications		
14:00	Safeguarding the Future: Hydrogen Fuel Cell Explosion Protection Across Industries (Automotive,	Business Model Innovation for accelerating low carbon Hydrogen	Welcoming Remarks - Carbon Storage and Transport
14:05	Marine, Aviation, Stationary Power Generation)		
14:10		Engineering the Hydrogen Value Chain: A Unified	Built to last: turning concrete Into a carbon sink
14:20 14:30	Hydrogen Aviation Research at ZAL TechCenter in	Approach to Électrolysis, Compression, and Industrial Scalability	
14:35	Hamburg		Legacy wells as a part CO2 Storage Assurance: Learnings, Observations and International Experience"
14:45 14:55		Power & Process Optimisation via CoSimulation	· ·
15:00	Panel Discussion: Fuel Cell Transport – Scaling Hydrogen Mobility		Leveraging Phosphogypsum Reserves for Permanent Carbon Capture & Storage: Redefining Heavy Industry's Environmental Strategy
15:20		Panel Discussion: Scaling Low-Carbon Hydrogen for Industry & Power	Deploying CCS at Scale: GE Vernova's Scope in Net Zero Teesside and Innovation in EGR
15:30 15:45	Hydrogen Purity for FC-Drives- Evaluation of the impact of greases on hydrogen quality according to ISO 14687 Grade D		Zero Teesside and Innovation in EGR
15:45	Fuel Cell Exhaust Air System for Commercial Vehicle	Renewable Energy Supply for Industrial Plants Made Reliable	Innovating CO2 offshore storage from a marine perspective
16:10	Applications	Powering the Hydrogen Future: High-Efficiency Technologies for Low-Carbon Production and	
16:20	Novel Usages for Fuel Cells: Aviation use case	Distribution	Panel Discussion: Europe's CO₂ Transport Network
16:35 16:45		Liquid Hydrogen: Enabling Hydrogen Production at Scale	
16:55	Closing Remarks	Searc	CO2 Dehydration: Teaching Old Dehydration
17:00 17:20		Closing Remarks	Technologies New Tricks
17:20 17:25			Closing Remarks

CONFERENCE SCHEDULER > DAY 3 < 23 OCTOBER 2025

DAY 3	HYDROGEN DERIVATIVES & SUSTAINABLE FUELS LOCATED: UPPER B4	HYDROGEN SYSTEMS AND INFRASTRUCTURE DEVELOPMENT LOCATED: UPPER B3	CARBON UTILISATION AND BLUE HYDROGEN LOCATED: HALL B6
09:00	Welcoming Remarks - Efuels and SAFs	Welcoming Remarks - Hydrogen Ports and	Welcoming Remarks - Carbon Utilisation
09:10	E-fuel Production: Key Pathways, Technologies &	Infrastructure Hydrogen ecosystem in the Port of Hamburg	Carbon Capture and Green Methanol Production
09.10	Innovations		Potential in the Pulp and Paper Industry Capturing 200 000 tpa CO2 from the Westenergy
09:35	Unlocking investments in SAF: Leveraging financial Instruments to drive SAF bankability	Port of Antwerp-Bruges as a hydrogen import hub and CO2 export hub for Belgium and Germany	Waste to Energy plant — the source for producing e-methanol
10:00	Total Water management Approach in Developing Ultra Low Carbon Intensity Hydrogen & Derivatives Projects	Panel Discussion: North Sea Powerhouse — Port Development and Offshore Electrolysis	Scaling-up low temperature CO2 electrolyser to industrial levels
10:25	NETWORKING BREAK		NETWORKING BREAK
10:45		Finland and the Baltic Sea region as H2 powerhouse -Hydrogen in the European energy transition	
11:10	A Comparative LCOX analysis of SAF production via Methanol and Fischer–Tropsch routes		Converting CO ₂ into Fuels and Products: Technology, Integration, and Lessons Learned
11:15	Decarbonising a Cement Facility for Sustainable Aviation Fuel Production	NETWORKING BREAK	Panel Discussion: Scaling Carbon Utilisation
11:40		Integrating Offshore Hydrogen into Europe's Future	Technologies for Commercial Deployment
12:00	Panel Discussion: The Role of SAFs in Decarbonising Aviation	Integrating Offshore Hydrogen into Europe's Future Energy System: An Update from AquaVentus	
12:05		A lauration III lum avertions France Cinculations to	Catalysts are enabling the sustainability transformation: CO2 utilisation and H2 storage
12:20	A true zero-carbon strategy for airlines based on	Accelerating LH₂ Innovation: From Simulations to Experimental Infrastructure	
12:25	hydrogen		
12:45	Closing Remarks	100kg of Hydrogen within 10 minutes: How RHeaDHy project is powering the future of freight	Decarbonising with CO ₂ -derived eNG
12:50		project is powering the future of freight	
12:55		Improving H2 refuelling - lessons from around the world	
13:20	NETWORKING LUNCH	Closing Remarks	
		Closing Kemarks	NETWORKING LUNGU
13:25		Closing Remarks	NETWORKING LUNCH
13:25 13:50		Closing Remarks	NETWORKING LUNCH
13:50 13:55	Welcoming Remarks - Ammonia Technology and Markets	NETWORKING LUNCH	NETWORKING LUNCH Welcoming Remarks - Blue Hydrogen
13:50 13:55 14:00			Welcoming Remarks - Blue Hydrogen
13:50 13:55 14:00 14:20	Markets	NETWORKING LUNCH	
13:50 13:55 14:00 14:20 14:25			Welcoming Remarks - Blue Hydrogen Building Scalable CCUS Infrastructure: Enabling Blue Hydrogen and CO ₂ Utilisation
13:50 13:55 14:00 14:20 14:25 14:30	Markets Low Carbon ammonia Opportunities and	NETWORKING LUNCH Welcoming Remarks - Hydrogen Storage and Transport	Welcoming Remarks - Blue Hydrogen
13:50 13:55 14:00 14:20 14:25	Markets Low Carbon ammonia Opportunities and Challenges for the European Market Enabling the Ammonia Economy: Integrated	NETWORKING LUNCH Welcoming Remarks - Hydrogen Storage and	Welcoming Remarks - Blue Hydrogen Building Scalable CCUS Infrastructure: Enabling Blue Hydrogen and CO ₂ Utilisation
13:50 13:55 14:00 14:20 14:25 14:30 14:45	Markets Low Carbon ammonia Opportunities and Challenges for the European Market	NETWORKING LUNCH Welcoming Remarks - Hydrogen Storage and Transport Potential for Exporting Low-Carbon Hydrogen from the UK and Ireland to Germany and Continental Europe	Welcoming Remarks - Blue Hydrogen Building Scalable CCUS Infrastructure: Enabling Blue Hydrogen and CO ₂ Utilisation Big Blue H ₂ ope Panel Discussion: Green hydrogen - Is the hype over and will blue hydrogen be more than just a
13:50 13:55 14:00 14:20 14:25 14:30 14:45	Markets Low Carbon ammonia Opportunities and Challenges for the European Market Enabling the Ammonia Economy: Integrated	NETWORKING LUNCH Welcoming Remarks - Hydrogen Storage and Transport Potential for Exporting Low-Carbon Hydrogen from the UK and Ireland to Germany and Continental	Welcoming Remarks - Blue Hydrogen Building Scalable CCUS Infrastructure: Enabling Blue Hydrogen and CO ₂ Utilisation Big Blue H ₂ ope Panel Discussion: Green hydrogen - Is the hype
13:50 13:55 14:00 14:20 14:25 14:30 14:45 14:50 14:55	Markets Low Carbon ammonia Opportunities and Challenges for the European Market Enabling the Ammonia Economy: Integrated	NETWORKING LUNCH Welcoming Remarks - Hydrogen Storage and Transport Potential for Exporting Low-Carbon Hydrogen from the UK and Ireland to Germany and Continental Europe Virtual Pipelines Enabling Hydrogen Deployment German Standardisation Roadmap Hydrogen Technologies - A Success Story on making standards	Welcoming Remarks - Blue Hydrogen Building Scalable CCUS Infrastructure: Enabling Blue Hydrogen and CO ₂ Utilisation Big Blue H ₂ ope Panel Discussion: Green hydrogen - Is the hype over and will blue hydrogen be more than just a
13:50 13:55 14:00 14:20 14:25 14:30 14:45 14:50 14:55 15:10 15:20 15:35	Markets Low Carbon ammonia Opportunities and Challenges for the European Market Enabling the Ammonia Economy: Integrated Technologies for Energy, Hydrogen, and Chemical Applications	NETWORKING LUNCH Welcoming Remarks - Hydrogen Storage and Transport Potential for Exporting Low-Carbon Hydrogen from the UK and Ireland to Germany and Continental Europe Virtual Pipelines Enabling Hydrogen Deployment German Standardisation Roadmap Hydrogen	Welcoming Remarks - Blue Hydrogen Building Scalable CCUS Infrastructure: Enabling Blue Hydrogen and CO ₂ Utilisation Big Blue H ₂ ope Panel Discussion: Green hydrogen - Is the hype over and will blue hydrogen be more than just a bridge technology?
13:50 13:55 14:00 14:20 14:25 14:30 14:45 14:50 14:55 15:10 15:20 15:35 15:45	Markets Low Carbon ammonia Opportunities and Challenges for the European Market Enabling the Ammonia Economy: Integrated Technologies for Energy, Hydrogen, and Chemical Applications	NETWORKING LUNCH Welcoming Remarks - Hydrogen Storage and Transport Potential for Exporting Low-Carbon Hydrogen from the UK and Ireland to Germany and Continental Europe Virtual Pipelines Enabling Hydrogen Deployment German Standardisation Roadmap Hydrogen Technologies - A Success Story on making standards	Welcoming Remarks - Blue Hydrogen Building Scalable CCUS Infrastructure: Enabling Blue Hydrogen and CO ₂ Utilisation Big Blue H ₂ ope Panel Discussion: Green hydrogen - Is the hype over and will blue hydrogen be more than just a
13:50 13:55 14:00 14:20 14:25 14:30 14:45 14:50 14:55 15:10 15:20 15:35	Markets Low Carbon ammonia Opportunities and Challenges for the European Market Enabling the Ammonia Economy: Integrated Technologies for Energy, Hydrogen, and Chemical Applications	NETWORKING LUNCH Welcoming Remarks - Hydrogen Storage and Transport Potential for Exporting Low-Carbon Hydrogen from the UK and Ireland to Germany and Continental Europe Virtual Pipelines Enabling Hydrogen Deployment German Standardisation Roadmap Hydrogen Technologies - A Success Story on making standards work for an effective hydrogen market ramp-up	Welcoming Remarks - Blue Hydrogen Building Scalable CCUS Infrastructure: Enabling Blue Hydrogen and CO ₂ Utilisation Big Blue H ₂ ope Panel Discussion: Green hydrogen - Is the hype over and will blue hydrogen be more than just a bridge technology? Blue Hydrogen – Technical & Economic Booster
13:50 13:55 14:00 14:20 14:25 14:30 14:45 14:50 14:55 15:10 15:20 15:35 15:45 15:50	Markets Low Carbon ammonia Opportunities and Challenges for the European Market Enabling the Ammonia Economy: Integrated Technologies for Energy, Hydrogen, and Chemical Applications Panel Discussion: The Future of Ammonia Handling safe NH3 bunkering in Northern Europe	NETWORKING LUNCH Welcoming Remarks - Hydrogen Storage and Transport Potential for Exporting Low-Carbon Hydrogen from the UK and Ireland to Germany and Continental Europe Virtual Pipelines Enabling Hydrogen Deployment German Standardisation Roadmap Hydrogen Technologies - A Success Story on making standards	Welcoming Remarks - Blue Hydrogen Building Scalable CCUS Infrastructure: Enabling Blue Hydrogen and CO ₂ Utilisation Big Blue H ₂ ope Panel Discussion: Green hydrogen - Is the hype over and will blue hydrogen be more than just a bridge technology? Blue Hydrogen – Technical & Economic Booster
13:50 13:55 14:00 14:20 14:25 14:30 14:45 14:50 14:55 15:10 15:20 15:35 15:45 15:50 16:00	Low Carbon ammonia Opportunities and Challenges for the European Market Enabling the Ammonia Economy: Integrated Technologies for Energy, Hydrogen, and Chemical Applications Panel Discussion: The Future of Ammonia Handling safe NH3 bunkering in Northern Europe Ports Innovative Development and Qualification of Large-Bore Flexible Hoses for Liquified Ammonia Transfer in Marine Offshore Applications High-Throughput Testing of Ru-based Catalysts for	NETWORKING LUNCH Welcoming Remarks - Hydrogen Storage and Transport Potential for Exporting Low-Carbon Hydrogen from the UK and Ireland to Germany and Continental Europe Virtual Pipelines Enabling Hydrogen Deployment German Standardisation Roadmap Hydrogen Technologies - A Success Story on making standards work for an effective hydrogen market ramp-up Panel Discussion: Safe and Scalable Hydrogen	Welcoming Remarks - Blue Hydrogen Building Scalable CCUS Infrastructure: Enabling Blue Hydrogen and CO₂ Utilisation Big Blue H₂ope Panel Discussion: Green hydrogen - Is the hype over and will blue hydrogen be more than just a bridge technology? Blue Hydrogen - Technical & Economic Booster for the Energy Transition
13:50 13:55 14:00 14:20 14:25 14:30 14:45 14:50 14:55 15:10 15:20 15:35 15:45 15:50 16:00 16:15	Low Carbon ammonia Opportunities and Challenges for the European Market Enabling the Ammonia Economy: Integrated Technologies for Energy, Hydrogen, and Chemical Applications Panel Discussion: The Future of Ammonia Handling safe NH3 bunkering in Northern Europe Ports Innovative Development and Qualification of Large-Bore Flexible Hoses for Liquified Ammonia Transfer in Marine Offshore Applications	NETWORKING LUNCH Welcoming Remarks - Hydrogen Storage and Transport Potential for Exporting Low-Carbon Hydrogen from the UK and Ireland to Germany and Continental Europe Virtual Pipelines Enabling Hydrogen Deployment German Standardisation Roadmap Hydrogen Technologies - A Success Story on making standards work for an effective hydrogen market ramp-up Panel Discussion: Safe and Scalable Hydrogen Storage Technologies	Welcoming Remarks - Blue Hydrogen Building Scalable CCUS Infrastructure: Enabling Blue Hydrogen and CO₂ Utilisation Big Blue H₂ope Panel Discussion: Green hydrogen - Is the hype over and will blue hydrogen be more than just a bridge technology? Blue Hydrogen - Technical & Economic Booster for the Energy Transition
13:50 13:55 14:00 14:20 14:25 14:30 14:45 14:50 14:55 15:10 15:20 15:35 15:45 15:45 15:50 16:00 16:15 16:40 16:55 17:05	Low Carbon ammonia Opportunities and Challenges for the European Market Enabling the Ammonia Economy: Integrated Technologies for Energy, Hydrogen, and Chemical Applications Panel Discussion: The Future of Ammonia Handling safe NH3 bunkering in Northern Europe Ports Innovative Development and Qualification of Large-Bore Flexible Hoses for Liquified Ammonia Transfer in Marine Offshore Applications High-Throughput Testing of Ru-based Catalysts for	NETWORKING LUNCH Welcoming Remarks - Hydrogen Storage and Transport Potential for Exporting Low-Carbon Hydrogen from the UK and Ireland to Germany and Continental Europe Virtual Pipelines Enabling Hydrogen Deployment German Standardisation Roadmap Hydrogen Technologies - A Success Story on making standards work for an effective hydrogen market ramp-up Panel Discussion: Safe and Scalable Hydrogen	Welcoming Remarks - Blue Hydrogen Building Scalable CCUS Infrastructure: Enabling Blue Hydrogen and CO₂ Utilisation Big Blue H₂ope Panel Discussion: Green hydrogen - Is the hype over and will blue hydrogen be more than just a bridge technology? Blue Hydrogen - Technical & Economic Booster for the Energy Transition
13:50 13:55 14:00 14:20 14:25 14:30 14:45 14:50 14:55 15:10 15:20 15:35 15:45 15:45 15:50 16:00 16:15 16:40 16:55 17:05 17:10	Low Carbon ammonia Opportunities and Challenges for the European Market Enabling the Ammonia Economy: Integrated Technologies for Energy, Hydrogen, and Chemical Applications Panel Discussion: The Future of Ammonia Handling safe NH3 bunkering in Northern Europe Ports Innovative Development and Qualification of Large-Bore Flexible Hoses for Liquified Ammonia Transfer in Marine Offshore Applications High-Throughput Testing of Ru-based Catalysts for Ammonia Cracking	NETWORKING LUNCH Welcoming Remarks - Hydrogen Storage and Transport Potential for Exporting Low-Carbon Hydrogen from the UK and Ireland to Germany and Continental Europe Virtual Pipelines Enabling Hydrogen Deployment German Standardisation Roadmap Hydrogen Technologies - A Success Story on making standards work for an effective hydrogen market ramp-up Panel Discussion: Safe and Scalable Hydrogen Storage Technologies Substance inputs for underground hydrogen storage	Welcoming Remarks - Blue Hydrogen Building Scalable CCUS Infrastructure: Enabling Blue Hydrogen and CO₂ Utilisation Big Blue H₂ope Panel Discussion: Green hydrogen - Is the hype over and will blue hydrogen be more than just a bridge technology? Blue Hydrogen - Technical & Economic Booster for the Energy Transition
13:50 13:55 14:00 14:20 14:25 14:30 14:45 14:50 14:55 15:10 15:20 15:35 15:45 15:45 15:50 16:00 16:15 16:40 16:55 17:05	Low Carbon ammonia Opportunities and Challenges for the European Market Enabling the Ammonia Economy: Integrated Technologies for Energy, Hydrogen, and Chemical Applications Panel Discussion: The Future of Ammonia Handling safe NH3 bunkering in Northern Europe Ports Innovative Development and Qualification of Large-Bore Flexible Hoses for Liquified Ammonia Transfer in Marine Offshore Applications High-Throughput Testing of Ru-based Catalysts for Ammonia Cracking	NETWORKING LUNCH Welcoming Remarks - Hydrogen Storage and Transport Potential for Exporting Low-Carbon Hydrogen from the UK and Ireland to Germany and Continental Europe Virtual Pipelines Enabling Hydrogen Deployment German Standardisation Roadmap Hydrogen Technologies - A Success Story on making standards work for an effective hydrogen market ramp-up Panel Discussion: Safe and Scalable Hydrogen Storage Technologies Substance inputs for underground hydrogen storage	Welcoming Remarks - Blue Hydrogen Building Scalable CCUS Infrastructure: Enabling Blue Hydrogen and CO₂ Utilisation Big Blue H₂ope Panel Discussion: Green hydrogen - Is the hype over and will blue hydrogen be more than just a bridge technology? Blue Hydrogen - Technical & Economic Booster for the Energy Transition
