Residential/Company headquarters parcel lockers

With your own parcel locker at Residential/Company headquarters, you can collect deliveries 24/7 – with no waiting for the courier, no missed deliveries, and no stress. Your parcels remain safe, dry, and protected even when you're not at home. It's also the perfect solution for meal delivery services – your meals can be dropped off at any time and wait for you fresh and ready.

The locker is also ideal for exchanging documents, keys, or gifts with family and neighbors. It's a modern, stylish, and highly practical convenience that significantly enhances the comfort of everyday life.

Simple to use

Any courier can deposit a parcel without the need for system integration. They simply enter the recipient's phone number – the resident of the housing estate.

The customer receives an SMS with a pickup code and can also operate the locker via the PointBOX mobile app.

Possibility of integration with courier systems, Smart Home platforms, and more.

Why choose the residential parcel lockers?

- **24/7 parcel pickup** – no matter your daily schedule, your parcels are always waiting for you safely.
- **Security and protection** – a robust, lockable design safeguards parcels from theft, weather conditions, and damage.
- **Contact-free convenience** – couriers can deliver without requiring your presence or signature.
- **“Neighbourhood locker” functionality** – exchange documents, keys, or gifts with family, friends, or neighbours.
- **Integrated design** – the unit can be seamlessly built into a fence, gate, or building façade, making it discreet and visually appealing.
- **Durable and weather-resistant construction** – made of galvanized steel, resistant to moisture and UV radiation, designed for year-round outdoor use.
- **24/7 helpdesk support** – fast technical assistance and issue handling around the clock.
- **System monitoring** – automatic notifications about parcel delivery and device status.
