

Vendo GT
100% Electric
#discoverthepossibilities

Discover the possibilities!

Stand out from the crowd. Sell street food or deliver cargo in style, with our new e-Tuk Vendo GT. We guarantee that you will not go unnoticed! Our new Vendo GT has a huge cargo space with multiple door configurations and lots of autonomy. A solid business case for your next business start-up.

Electric, Silent and Lots of Room

Driving the new Vendo GT is truly a unique experience.

100 % Electric

The eTuk Vendo GT is 100% electric, and is now available with two battery options: Lead-Acid and Li-ion

More Milage

With an autonomy of 80 km with Lead-Acid, and 100 km with Li-ion batteries, the new Vendo GT is perfect for a fun-filled ride around the city.

Very low maintenance costs

Less moving parts means less part failures and downtime, as well as lower overall maintenance costs.

High Return on Investment

With its large cargo space, low maintenance costs, cheap and clean electric "fuel", the e-Tuk Vendo GT provides a solid business case and a high Return on Investment

Top Speed : 45 km/hr

Zip through the city traffic in style.

Silent !

You will only absorb the vibe and sounds of the city, not of the engine.

Quality by design

- The new Vendo GT has been produced according to the highest quality and safety standards in the Automobile industry.
- Homologated to European (WVTA), USA (DOT) and many other markets, the new Vendo GT can be driven in more than 30 countries around the world.
- Since January 2018, all our eTuks are being produced in our new automated assembly plant in Thailand.
