THIS COURSE IS DESIGNED FOR DANGEROUS GOODS PROFESSIONALS WHO WANT...

A COST AND TIME EFFECTIVE SOLUTION FOR ALL MODES

Gain a thorough understanding of IATA, ADR, and IMDG regulations — essential if you ship Dangerous Goods by air, road, sea, or a combination of modes.

TO BECOME THE 'GO-TO DG EXPERT'

Though the regulations do have many similar concepts there are many differences between the modes. This course allows you to understand the interrelationships between modes of transport.

TO SEND ANY CLASS, BY ANY MODE

We run courses that cover air road & sea for specialised areas (for example lithium batteries). This course will tackle all classes of dangerous goods (with the exception of class 7).

ENSURE COMPLIANCE

Dangerous goods errors can cause delays, reputational damage and legal penalties. Understanding the regulations better ensures your goods get to where you need them quickly.

CARRIAGE OF DANGEROUS GOODS

BY ROAD & SEA FEE £645+VAT | €790+VAT

This course will teach delegates to correctly prepare shipments of dangerous goods for transport by road & sea and meets the regulatory requirements for shippers detailed in the IMDG (sea) and ADR (road) regulations.

This course is a practical solution for shippers, packers, freight forwarders, hauliers and shipping line personnel who move dangerous goods from the UK to other parts of the world by both truck and ferry or ship.

AN INTRODUCTORY COURSE FOR NEW DGSA'S

New to dangerous goods and are planning on taking the DGSA exam?

The training serves as an excellent way to familiarize yourself with Dangerous Goods concepts, the regulatory rules, and the ADR regulations, making it the perfect step to prepare for the DGSA course and subsequent exams.

CARRIAGE OF DANGEROUS GOODS

BY SEA FEE £575+VAT | €690+VAT

We also provide a Carriage of Dangerous Goods by Sea course tailored for individuals seeking in-depth knowledge of the IMDG regulations.

This course provides a practical solution for individuals involved in international exports, especially those who frequently interact with shipping lines and ports in their roles.

COMPLETELY NEW TO DANGEROUS GOODS?

We recognise that if it's the first time you're qualifying as a DGSA, the process can be quite tough! The intense training coupled with the back-to-back exams can feel daunting, especially if you're new to the subject.

For this reason, when you book a DGSA course with us, we'll offer you a complimentary introductory Dangerous Goods Awareness course.

Our Awareness courses will give new candidates a helpful introduction to the regulations and basic dangerous goods concepts. While it's optional, we highly recommend it if you're just starting out.

CARRIAGE OF DANGEROUS GOODS

BY RAIL & ROAD FEE £645+VAT | €790+VAT

This course will teach delegates to correctly prepare shipments of dangerous goods for transport by rail & road.

Ideal for delegates new to dangerous goods transport, or those preparing to become a DGSA, the course meets the regulatory requirements for shippers detailed in the ADR (road) & RID (rail) regulations.

CARRIAGE OF LITHIUM BATTERIES

BY AIR, ROAD & SEA FEE £630+VAT | €765+VAT

The legislation for lithium batteries can be quite complicated, making it difficult to cover the topic in enough depth on our general air, road and sea courses.

Subsequently, we have developed a course that looks specifically at how to ship lithium batteries by air (using IATA), by road (using ADR) & by sea (using IMDG).

We cover both lithium ion and lithium metal batteries, as well as lithium batteries contained in or packed with equipment.

THIS COURSE IS DESIGNED FOR PROFESSIONALS WHO ...

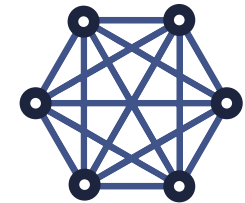

ONLY NEED TO UNDERSTAND ABOUT BATTERIES

Many professionals are involved in Dangerous Goods solely because of lithium or sodium batteries. This course is the ideal solution — it covers everything you need to know without overloading you with unnecessary information on other dangerous goods.

ARE DG QUALIFIED BUT NEED MORE KNOWLEDGE BATTERIES

Lithium battery regulations can be complex, even for experienced Dangerous Goods professionals. This course breaks down the details, clears up common misconceptions, and makes compliance simple and straightforward.

CARRIAGE OF EXCEPTED & LIMITED QUANTITIES

BY AIR, ROAD & SEA FEE £645+VAT | €790+VAT

This specialised course looks at excepted and limited quantities being shipped by air, road and sea.

This course has proved popular for our customers who send dangerous goods in relatively small quantities per package because it covers all three modes of transport over across 5 short modules.

We look at the procedures in the regulations for shipping excepted and limited quantities, providing delegates with the knowledge to ensure compliance whilst benefiting from the advantages of shipping under these provisions

CARRIAGE OF INFECTIOUS SUBSTANCES

BY AIR, ROAD & SEA FEE £545+VAT | €655+VAT

This is a specialised course which we have developed for delegates shipping infectious and biological substances.

After completion of the course, delegates will understand the difference between a category A and a category B infectious substance and will have the knowledge and qualification to send them by air road and sea.

As the course focuses on infectious substances and related products such as dry ice, it is a cost and time-effective solution for those whose involvement in dangerous goods is limited to infectious substances.
