

ANDREOLI&C

MARANELLO

**THE ART
OF METALWORKING**

MAXIMUM PRECISION, LONG EXPERIENCE, SEARCH FOR PERFECTION.

Who we are

Andreoli & C. designs and manufactures components for the automotive, aerospace and other strategic sectors.

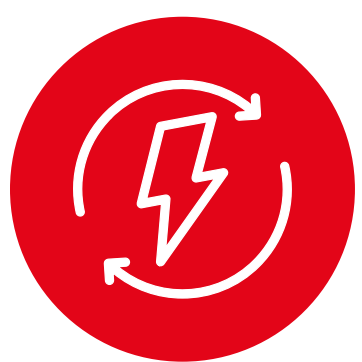

*Thanks to the **experience** gained over the years, it is able to work with most materials, **specializing** in particular in **aluminium, titanium and steel**.*

*The Andreoli & C. team is made up of a young and close-knit team that has **over 60 employees**, constantly **updated on processing methods and technologies**, capable of following the customer's needs at 360°.*

Automotive e Motorsport

*High experience in these sectors has led us to collaborate with teams, technicians and mechanics from the **main global car manufacturers**.*

Energy & Green

*We create **components** for the **energy** and renewable technology development sectors, where **rigorous controls** and **specific certifications** are required.*

Aerospace

*Our **staff** is **constantly updated** and **trained** to maintain the quality standards necessary to collaborate with the main manufacturers in the sector.*

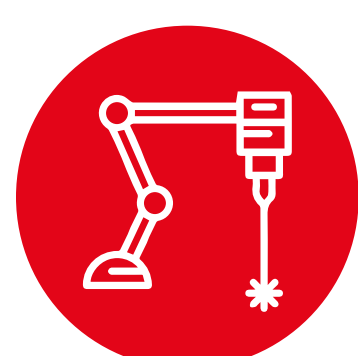

WE CARRY OUT A WIDE RANGE OF PROCESSING, AND WE ARE UNBEATABLE IN THESE.

*Prototypes
and pre-production models
Co-design of new projects*

*Complete management
of the order*

Assemblies

Testing

Digital Radioscopy

*Macrographic analysis
of welded joints*

*UNI EN ISO 9712: 2022
certified personnel*

Quality check for:

- *Dimensional inspection*
- *FAI (First Article Inspection)*
- *Reverse Engineering*

QUALITY IS ALWAYS KEPT UNDER CONTROL!

Certifications: EN 9100:2018
| AS 9100 D | ISO 9001:2015
| JISQ 9100:2016

*We perform **certified quality checks**,
in order to **ensure the high quality
standards and total safety** to our
components.*

*As from 2018, in addition to achieving
the 10-year renewal of its ISO 9001
certification, Andreoli & C. has further
extended its certification coverage by
also obtaining the EN 9100:2018
certificate for the Aerospace sector.*
